

# EIGHT DEAD IN SHAWNEE TORNADO

## MANY PARTS OF COUNTRY SWEEP BY STORM HAVOC

Twelve Persons Reported as Dead From Rampages of Storms.

**BLIZZARDS FELT**  
Kansas, Oklahoma and Texas Bear Brunt of Storms Over Country.

(By the Associated Press)  
CHICAGO, March 29.—A dozen persons were killed, a hundred or more injured and a heavy loss caused in a half dozen storms in several states last night and early today.  
Tornadoes, gales, windstorms and hail struck Mississippi valley from Minnesota to Missouri and Kentucky. Lower temperatures with decidedly colder weather in southern Illinois, Indiana, and southeastern Missouri were expected tonight and tomorrow. Eight persons were killed in a tornado at Shawnee, Oklahoma, three are dead in southeast Missouri, and a boy killed at Goff, Kansas.  
Thunder storms were widespread throughout Oklahoma, Texas, Kansas, Missouri, Illinois, Indiana and Kentucky.  
A hailstorm with the wind driving 55 miles an hour occurred in Chicago.  
Damage in Missouri and north Arkansas probably will reach \$500,000 according to reports.

CHICAGO, March 29.—Twelve persons are dead, property damaged heavily, and scores of towns and cities in northwest, centralwest and Mississippi valley virtually isolated today as the result of tornadoes, blizzards and storms which began yesterday.

Heavy rainfall, accompanied by gales, struck Kansas, Oklahoma, and Texas points late yesterday. A boy was killed by lightning at Goff, Kan. Four persons were injured at Vernon, Texas.  
Thousands of dollars damage was done to property and wire facilities. Damage to crops is feared in some sections of South Dakota and Minnesota, where temperature fell sixteen degrees to below freezing in raging blizzards.

A severe electrical storm in the lower Mississippi valley severed wire connections between points in Arkansas, southwestern Missouri and Tennessee. Serious damage to light and power plants was reported from west Arkansas and communication south and west of Memphis was difficult.

The facilities of the Associated Press in the affected areas were hampered.

Three people were killed, fifteen injured, and many miles of telephone wire and other property damaged in a wind which swept southeast Missouri at 2 o'clock this morning.

**LITTLE ROCK, Ark., March 29.**—Little property damage was reported in this section of the state today from the wind and rainstorms of last night. The extent of the damage seems to have been the blowing down of telegraph and telephone lines, uprooting of numerous trees.

The highest wind velocity recorded here was 52 miles per hour. It blew from the west.

**CAROL, Ill., March 29.**—Three little towns in McCracken county, Kentucky have been wiped out by the windstorm which is still sweeping down from the northwest, according to reports reaching here over the only telephone wire into that county still intact. The places destroyed are: Heath, Maxson, and Lamotte, whose total population is less than one thousand.

## Limited Train is Thrown in Ditch in Indiana Town

(By the Associated Press)  
DANVILLE, Ill., March 29.—The Chicago & Eastern Illinois Dixie Limited northbound was wrecked this afternoon at 4:20 at Cayuga, Ind., 18 miles southeast of here when the engine struck a derail which protected a Clover Leaf passenger train standing on the crossing.  
The engine struck and demolished the interlocker, the mail car was thrown crosswise of the track and the baggage and smoker were derailed. The rest of the train remained on the rails. Towerman John Carson of Cayuga, Engineer Tuckmeyer and Fireman Kohlmeier of Evansville, were slightly injured.

## NEW HEIR TO THE BRITISH THRONE TO ARRIVE IN ALBERT'S HOME IN FRANCE

The Duchess of York.

An heir, third in line from the British throne, is expected to arrive in the household of the Duke and Duchess of York in June, according to dispatches. There is much talk of the relinquishment of his rights to the throne by the Prince of Wales in favor of his brother, the Duke of York, second son of King George, and in that event the child would be direct heir to the crown and sceptre of the empire. Unlike the son of Princess Mary, the Duke of York's child will be a prince or princess of the royal blood since the king has given the Duchess of York that rank. Mary's son is considered a commoner.

## NEWTON'S SHOWS OFF FOR SEASON

Winter Quarters Abandoned for Annual Swing to North States.

Early yesterday morning saw Howett Bill Newton's show take the trail that for months to come will lead his aggregation of circus performers and animal attractions far up into the north central states before swinging back through the states to the north of Oklahoma and finally back to winter quarters in this city.  
Through the past winter months Mr. Newton has been adding steadily to the size of his show, securing more animals and adding to the quality and number of his special acts.

At last the approach of spring brought the opening performance Friday afternoon when the people of the city and country were enabled to see the wonders and thrills under the big top near the glass factory. After making their 1924 debut to the local citizens the show started off the following morning on its journey to the north and east.  
The itinerary calls for visits to six Oklahoma towns, two Arkansas performances, and then Missouri, Illinois, and other north central states, returning through Minnesota, south into Texas and Louisiana and back at last to their quarters just north of Ada.

The winter months were busy with the addition of employees, materials, the construction of bodies suitable for the thirty motor trucks which will convey the show from one point to another, and training of animals for acts which will display to wondering visitors daring of the trainer and skill of the beasts chosen to go through with various acts.

For the past few weeks the brightly painted trucks have been passing up and down the streets of Ada in preparation for the start yesterday. A number of trucks were added this winter to take care of the expansion of the show.

Finally all things were ready and the travels of the show, to occupy many months and provide entertainment for thousands of people, began. Citizens of Ada will follow with interest the travels of the show that has wintered here for several years past.

In 1922 the United States produced 8,639 books as against 8,329 in 1921. Fiction led with 758, while religion was second with 568.

## Green Issues Call For Baseball Fans In Sunday Meeting

The baseball season will be unofficially opened Sunday afternoon at 3:30 o'clock at the McSwain theatre when baseball fans lay the foundation for the season's routine. Manager A. O. Green of the local independent club issued an invitation to all interested in the coming baseball season to attend the meeting Sunday afternoon and help lay plans for the season.  
Matters ranging from organization and financing the club will be discussed at the Sunday afternoon meeting, Green announced.  
Green stated that the first games of the season will be played here some time next month.

## KIWANIS CLUB TO BECOME REALITY

Organization to be Perfected Here Monday Night at Banquet.

The proposed Kiwanis Club for Ada will become a reality Monday night when the final organization of the club will be completed. According to J. E. Van Berschot, international field representative, there will be a charter membership of 25. Classifications are being rapidly filled and all indications point toward a rapid growth. It is urged that all business and professional men, who have signified their intentions to become members be present at the dinner Monday evening, which will be complimentary.  
The field representative states further that there has been a great deal of enthusiasm shown by the men of Ada, who are anxious to establish a unit of the organization, that is composed of over 1200 clubs and 86,000 members in the United States and Canada.  
That Kiwanis is noted for its civic activities is evidenced by the fact that over 2000 community and municipal enterprises were sponsored by the club in one year's time, and the details of each of these activities are now to be available for Ada, through the local club.

**NORFOLK, Va., March 29.**—The coast guard cutter, Manning, left here today in response to distress signals from the French steamship Tour reported to be leaking about fifty miles off Cape Charles.

## SENATE PROBES TURN ATTENTION TO NEW ANGLES

Other Discrepancies of Former Attorney General Under Fire.

**PROBE CONTINUES**  
Files Laid Bare to Group Investigating Attorney General.

(By the Associated Press)  
WASHINGTON, March 29.—A disposition to apply the brakes to its public disclosures was apparent when the senate Daugherty committee resumed its inquiry into the official acts of the former attorney general.  
Instead of examining confidential files of the justice department in public as originally planned the committee decided to consider them in execution session.  
The files relate to alleged activities in this country of representatives of the Mexican revolution in Lower California and had figured in correspondence between President Coolidge and Mr. Daugherty. W. J. Burns, chief of the justice department's bureau of investigation had been summoned to lay the files before the committee but instead of questioning him the committee put on the stand Nicholas Cimino of New York who testified regarding Mr. Daugherty's relations to Howard Manington and another.  
Continue Investigation.  
Taking only passing notice of Daugherty's disappearance from public life the investigating committee tried to piece out details of one \$100,000 deal and heard hints of another.  
By H. L. Scaife, a former department of justice agent, the committee was told that investigation into the Mitsui aircraft case, in connection with which Gaston B. Means has testified Jess Smith received \$100,000, was blocked by A. F. Meyers, a special assistant to the attorney general after it had been discovered that the company owed the government many millions.  
Scaife said he had been told by Guy D. Goff, then assistant attorney general, that Meyer received his appointment through former attorney general George B. Wickersham whose law firm, he said, was retained by the Mitsui company.  
The reference to the second \$100,000 transaction was made by Nicholas Cimino, a New York restaurant man, who testified that he had overheard a conversation in a hotel here about a "whiskey deal in which Mortimer got \$100,000 from a party in Pittsburgh." He knew nothing of details and when committee members put him through a course of questioning to test his memory he said he could not even remember whether he had been prosecuted in New York for a liquor law violation.

**Funds for Air Mail Service**  
WASHINGTON, March 29.—The house today agreed to appropriate \$1,500,000 for operation of the New York-San Francisco air mail service during the fiscal year beginning July 1.  
It also approved an additional appropriation of \$1,250,000 for operation of air mail service by night flying.

## WHITEHURST CASE DEVELOPS LITTLE

**OKLAHOMA CITY, March 29.**—Testimony by ten defense witnesses that the department of agriculture was efficient in handling animal disease epidemics and in testing cattle for tuberculosis, and a statement by Senator C. B. Leedy that there is no state law under which the department had the right to entrust any A. and M. funds to M. J. Otey or any other college financial secretary, featured today's session of the senate impeachment trial of J. A. Whitehurst, head of the department.  
George C. Whitehurst, brother of the defendant, issued a statement today denying that any of the \$250 check given him by Otey was paid to the Oklahoma City Oklahoma or any other newspaper for publicity in behalf of the \$100,000 A. and M. deficiency bill before the 1921 legislature. His statement, which was issued after the day's impeachment proceedings, said he and Joe O'Brien split \$500 between them for their services. The check was introduced by the state board of managers in yesterday's session of the trial.

**League of Nations Shows Credentials, U. S. Observer Says**  
SAN FRANCISCO, March 29.—The league of nations has settled five threatened wars, arrested an epidemic of typhus in Russia, rescued 450,000 prisoners of war who were dying in Russian prisons, and performed other great tasks successfully in the interest of all humanity, John Clark, former associate justice of the United States supreme court, said here today in an address to the commonwealth club in advocacy of the league.  
All the world agrees that unless the league can prevent another world war is on its way within the next ten years.

## THIRD OF COUNTY LANDS NOT TAXED

**Total of Non-Taxable Lands in Pontotoc County Diminishing.**  
Only two-thirds of the total valuation of lands in Pontotoc county is taxable, it was revealed in estimates of county assessor's office Saturday.  
While the valuation of taxable lands stands at two-thirds of the total on the tax rolls, the actual acreage of non-taxable lands in the county is estimated at about one-fourth, the difference coming from the value of preferred Indian lands not taxable.  
According to figures in the assessor's office this total of non-taxable lands has steadily decreased during the past few years gradually approaching extinction, when allotments for twenty years expire.  
According to reliable information, the total of non-taxable lands ten years ago constituted approximately fifty percent of all the land in the county thus throwing the burden of taxation for county and state government on the shoulders of half of the land owners in the county.  
The hindrance to a full treasury chest, non-taxable lands, is due to extinction in 1927, according to the most reliable information available owing to the fact that most of the land allotted to Indians was patented in 1906 and for a period of 21 years.

**J. H. ROBERTS' BARN BURNED NEAR BEBEE**  
The barn of J. H. Roberts' two and one-half miles west of Bebee, was burned Friday night about 9:30. The high wind prevailing at the time and lack of means of fighting the flames made it impossible to save the structure.  
The barn was partially covered by insurance, it is reported, but no estimate of the loss could be obtained from the first reports that came in. The origin of the fire is unknown.  
The place was occupied by L. A. Thompson.  
Let a News Want Ad get it.

## CHIEF RABBI OF PALESTINE VISITS U. S.; IS HONORED

Rabbi A. Kook.

High honors were paid by American Jewish leaders in the Palestine movement to A. Kook, chief rabbi of Palestine, on his arrival in New York for a visit. The rabbi recently was appointed an honorary colonel in the British army and awarded a distinguished service medal.

## WIFE OF HUERTA LEAVES ORLEANS

**Wife Now Appears Confident Husband Alive, Deny Galveston Report.**  
NEW ORLEANS, March 29.—Senora de la Huerta, wife of the Mexican leader, left here at 11 o'clock last night on a Southern Pacific train for San Antonio, Texas, the New Orleans Rally State announced today. She was accompanied by her two sons with whom she arrived here March 21 from Mexico City.  
Senora de la Huerta, when she boarded the train, was supremely confident of the safety of her husband, according to the newspaper, in marked contrast to her attitude yesterday when newspaper men quoted her as having told them she believed him dead.  
De la Huerta was last heard from on March 18 when he is said to have boarded a vessel at Frontera to sail for an unannounced destination and much speculation has resulted over his silence and whereabouts since that time.  
Reports from Mexico City that Adolfo de la Huerta landed in Galveston on March 25 were declared unfounded today by Adolfo Jimenez rebel consul, A. C. Sullivan, special agent of the department of justice who is on the watch for de la Huerta, also said he knew nothing of the reports.  
"The republic has now entered another phase," said Jimenez. "The Obregon party has been unable to discover the whereabouts of de la Huerta and is sending out these reports in an effort to make us say something. De la Huerta is still in Mexico."

**WASHINGTON, March 29.**—Alvarez Castillo, Washington representative of the Mexican revolution movement, announced the receipt by wireless tonight of a message from Adolfo de la Huerta at Frontera, state of Tabasco, on the isthmus of Tehuantepec, branding as false reports of his death and denying that anything unusual had happened to him.  
De la Huerta instructed Castillo to inform the Associated Press "unofficially" that he was performing his duties as usual and that "the cause was going forward." Reports which have been in circulation in Mexico City and the United States concerning his "disappearance," the revolutionary leader characterized as "Obregon propaganda."

**Mrs. Adolfo de la Huerta** who arrived in San Antonio tonight from New Orleans, denied a report that she was to meet her husband in San Antonio or any other city in the United States. She said her husband, as far as she knew, was in the Mexican state of Campeche where he was carrying on a revolt against the Obregon government.

## CUPID PROVES HE IS DIPLOMAT, TOO

Lady Muir nee Nagedja Stancioff.

A little while ago the acute feminists were cheering Mlle. Nagedja Stancioff, Bulgaria's and the world's only woman diplomat because she decided men weren't worth marrying. Well, she is married now. She became a British citizen by marrying Sir Alexander Muir and has announced her intention of seeking election to parliament. The former Mlle. Stancioff was named secretary of the Bulgarian legation in Washington but a political upheaval prevented her from coming to this country.

## TWISTER BRINGS DESTRUCTION TO PART OF SHAWNEE

Many in Hospitals After Terrific Gale Sweeps Pott County Seat.

**RELIEF IN HAND**  
Enormous Loss of Property Left in Havoc of Tornado.

**OKLAHOMA CITY, March 29.**—Central Oklahoma was recovering today from a windstorm that swept the district late yesterday, taking a toll of eight lives, injuring many others, and leaving a trail of damage and destruction that entailed a loss of several hundred thousand dollars.

Shawnee, county seat of Pottawatomie county, 36 miles southeast of here, bore the brunt of the disturbance. All reported deaths occurred there and the bulk of the property loss was caused by a tornado that ripped a path through a leading residential district of the city.

In other parts of the state the wind blew straight.

Cities that reported property damage were Enid, Guthrie, Frederick, Noble, Hollis and Holdenville. The loss at Guthrie was estimated at \$100,000. Many store windows were blown in there and at Fort Reno, forty miles west of the city, several hundred thousand dollars damage was sustained by government buildings. Near Drumright in Creek county 172 oil derricks were blown over, causing damage of \$70,000.

Wire connection in various parts of the state was seriously crippled but service was approaching normal tonight.

Approximately two hundred homes were destroyed in Shawnee. Nearly a score of persons were still in the municipal hospital tonight but more than thirty hours after the tornado struck there had been no increase in the number of dead as announced last night.

The devastated area at Shawnee is about two blocks wide and twelve long. Throughout its course homes and business buildings are twisted and torn, often into shapeless piles of debris.

Two churches standing unharmed in the midst of the destruction caught the eye today. The storm, leaping from spot to spot, vaulted the cross on the high steeple of the Catholic church, seemingly slid down the steep incline of the roof and demolished a small store building that stood beside the church.  
Tearing across an intervening two blocks in which residences were torn to kindling wood, the wind raised again as it reached a Lutheran church, dropped quickly on the other side, and inflicted serious damage to an adjoining home.

Throughout last night Shawnee company of Oklahoma national guard assisted by members of the American Legion, patrolled the stricken area, searching for bodies, and helping remove the effects of persons whose homes were destroyed. Truck loads of furniture and personal effects lumbered out of the town area all night and when they broke the shells that had worn houses presented a stark and empty appearance.

A cordon of national guards was thrown about the district at an early hour today and no one was permitted to enter except upon passes issued at the city hall, where the attention of relief work centered.

Approximately 700 persons are homeless but few calls for personal assistance have been received. City officials pointed in explanation to the fact that the devastated area was populated by persons for the most part of at least moderate means.

Saturday morning M. J. Borge, section foreman on the Katy, brought to the News office a letter he had just received from his son, Rev. Hollis Borge of Shawnee, written just after the storm had passed. He stated that the storm came so suddenly and unexpected that no one realized what had happened until it was over. He said it struck the town at Jefferson school house, two blocks north of the Catholic church and swept a path two blocks wide to the cemetery north of the city, carrying with it some large houses as well as small ones. He ascribes the comparatively small loss of life to the fact that being a pretty day most of the people were in the business part of the city.

**Logan County Pioneer Dead.**

**GUTHRIE, March 29.**—J. P. Burford, 79, pioneer settler in Logan county died at his home here today.

## Oklahoma's New Game Laws

ENROLLED  
House Bill No. 73—By Gulager

An act amending sections 6508, 6511, 6536, 6537, 6543, 6550, 6558, 6559, 6573, compiled statutes of Oklahoma, 1921, relating to fish and game; providing for a hunting and fishing license and declaring an emergency.

Be it enacted by the people of the State of Oklahoma:

Section 1. That section 6508 compiled statutes of Oklahoma, 1921, be and the same is hereby amended to read as follows:

Section 6508. License to hunt and fish required.

It shall be unlawful to hunt within the state of Oklahoma or fish with artificial bait or lures, except as in this chapter provided, all reference to hunting license in the laws of this state, shall hereafter be construed to mean hunting and fishing license within the meaning of this section. Any person not desiring to fish with lures or artificial bait, shall not be required to obtain a license for fishing with hook and line in the ordinary manner without such lure or artificial bait. The hunting and fishing license shall be in the usual form and where the applicant desires to fish with the game fish bait or lures herein specified appropriate words shall be added to the license to indicate that it is a fishing license or hunting and fishing license combined; the fee for such hunting license, or hunting and fishing license, shall be as now provided by law for hunting.

Provided, that for non-resident fishing license only, the fee shall be five dollars (\$5.00). Provided, further, that for collecting such fee for non-resident fishing license and issuing same, a fee of fifty cents (50c) may be paid. The ordinary form of hunting and fishing license may be used and the words "fishing only" endorsed up on the face of the stub and license.

Section 2. That section 6511 compiled statutes of Oklahoma, 1921, be and the same is hereby amended to read as follows:

Section 6511. Non-residents and alien.—The penalty:

All alien or non-resident of this state within the meaning of this statute who shall violate the laws of this state by hunting or fishing without the license hereby provided for, or who, having procured such license shall violate the laws of this state by killing deer, turkey, or prairie chicken, or hunting, pursuing or attempting to kill such game; or by killing same out of season or by exceeding the bag limit; or in any other manner, or shall violate the laws of this state regulating fishing, or killing or taking fish, shall be punished by a fine of not less than one hundred dollars (\$100.00) nor more than five hundred dollars (\$500.00) or by imprisonment in the county jail not exceeding six (6) months, or by both such fine and punishment.

Section 3 Section 6536, compiled statutes of Oklahoma, 1921, is hereby amended to read as follows:

Section 6536. Warden may capture and skin game.

The state game and fish warden may capture at any time within this state, or may procure from any point outside of the state, game, birds or fish intended for propagation or liberation to stock covers in this state and may have the game in possession at any time.

Section 4. Section 6537, compiled statutes of Oklahoma 1921, be and the same is hereby amended to read as follows:

Section 6537. May furnish birds for propagating.

The said game warden may furnish to any resident land owner or lease of farm lands in this state, game birds for propagating purpose. Upon satisfactory showing by such citizen that he has made and will make suitable provisions for nesting grounds and cover for the protection of such birds upon his premises, or in case contract and agreement is made between the state through its game warden and such citizen, for the stocking of such premises for propagating purposes.

Section 5. That section 6543, compiled statutes of Oklahoma, 1921, be and the same is hereby amended to read as follows:

Section 6543. Violation of game laws—punishment.

It shall be a misdemeanor to violate any section of any provision of the fish and game laws of this state and where not otherwise provided in this chapter, any person so violating shall, upon conviction, be punished by a fine of not less than ten dollars (\$10) nor more than one hundred dollars (\$100) or by imprisonment in the county jail not less than ten (10) days nor more than thirty (30) days or by both such fine and imprisonment.

Section 6. That section 6550, compiled statutes of Oklahoma, 1921, be and the same is hereby amended to read as follows:

Section 6550. Private ponds.

A person owning a natural pond of not more than twenty acres, or an artificial pond entirely upon his premises, may take or permit others to take fish from such natural or artificial pond for the purpose of propagating or consumption as food, provided the sources of water supply of such natural or artificial pond are entirely upon his own premises and that the fish do not have access of such pond from water not under such owner's control, or from water stocked at the expense of the fish and game department of the state.

Section 7. That section 6558, compiled statutes of Oklahoma, 1921, be and the same is hereby amended to read as follows:

Section 6558. Unlawful to hunt or fish on game preserves.

It shall be unlawful for any person, other than a member of the fish and game commission, or its employees, in the execution of the lawful orders of said commission, or of the state game and fish warden to molest or disturb the water, ponds or property, for any fish hatchery of the state, or to place or cause to be placed, in such water or pond, any substance or anything injurious to the health or safety of fish confined therein, or to hunt, pursue, chase, injure, capture, or

kill in any manner, any fish confined in such hatcheries, water or pond, or to hunt, pursue, injure or kill any animal or bird protected by the laws of the state upon lands owned or rented by the state game and fish department and are operated by the state for the purpose of propagation and the distribution of fish, game animals, or game birds. Any person violating the provisions of this section shall be punished by a fine of not less than twenty-five dollars (\$25) nor more than five hundred dollars (\$500) or by imprisonment in the county jail for a period of not more than sixty (60) days or by both such fine and imprisonment.

Section 8. That section 6559 compiled statutes of Oklahoma, 1921, be and the same is hereby amended to read as follows:

Section 6559. Regulating fishing.

It shall be unlawful for any person to take or catch from any of the rivers, creeks, lakes or ponds of this state, other than privately owned ponds, any game fish, such as black bass, small mouth bass, bluegill, mouth bass, striped bass, calico bass, rock bass, other wise known as goggle eyed bass, crappie, white perch, yellow perch, rainbow or brook trout, with any sort of net, trammel, net seine, gun, trap, weir or pot, snare or gig, or to take from any such waters with hook and line any black bass or big mouth bass, or small mouth bass, smaller than 8 inches in length, or any rainbow or brook trout, smaller than seven inches in length, any crappie smaller than five inches in length, or to take more than ten bass or more than twenty-five game fish of all kinds in one day, or to sell, offer to sell, or have possession for the purpose of selling, any of the game fish herein described, other than such as may be taken from privately owned ponds or lakes as defined in this chapter. It shall be unlawful to fish, catch fish or attempt to catch or take fish with any net, trammel, net seine, gun or trap of any kind, or a net weir, gig or pot, other than from privately owned ponds or lakes, except in Salt Fork, in Grant county, Chandler creek, Arkansas Cimarron, South Canadian, Washita and Verdigris rivers, the north fork of the Red River, Otter creek, throughout Tillman county, the Salt Fork of the Arkansas River, Muddy Boggy, north fork of Muddy Boggy, Deep Fork, a tributary to the Canadian river, in the county of McIntosh, Kimbrell river, Poteau river, Glover Fouchmaline, Gaines creek and Black Bear creek; provided that it shall be lawful to use an ordinary minnow trap or minnow seine not more than ten (10) feet in length for the purpose of catching small minnows for bait.

Section 9. That section 6573 of the compiled statutes of Oklahoma, 1921, be and the same is hereby amended to read as follows:

Section 6573. Leasing lands.

The state game and fish warden is hereby authorized to enter into leases with land owners for lands adjacent to and surrounding any established game preserve or to lease all necessary lands for the purpose of propagating quail on the farms of this state, and all provisions of this chapter shall apply to lands so leased to and by the state and where the refuge or propagating ground leased by the state is less than one hundred sixty (160) acres in a body, than the one hundred sixty (160) acres upon which such refuge or propagating ground is leased, shall be considered as a state game preserve and propagating ground, within the meaning of this act. Provided this act shall not apply to any lease or pretended lease made in violation of law prior to the adoption of this act.

Section 10. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist by reason whereof of this act shall take effect and be in full force from and after its passage and approval.

### EGYPT

J. R. Floyd made a business trip to Ada Monday.

Grandpa Myers of Pecan Grove called on John Myers and family Monday.

Don't forget the meeting Friday night and singing Sunday night.

## Fore!

It ain't been so many years since a drive wuz a occasion instead uv a act. You sent a note by a little boy t' th' young lady that you wuz waitin' on at that particular time astin' her if she would do you th' honors t' accept you invitation t' a little spin up an' down th' main drag with you in your fancy trap behind your thoro-bred. When golf got t' be played by party near ever body includin' some editors, th' word drive come t' mean th' first excuse t' cuss after you has reached th' course an' started t' play.

But a long in th' year 1917 when th' first promises of a bonus t' th' soldiers wuz begun t' be made, they wuz a new kind uv drive invetned, th' meanin' of witch was about displaced all th' former legitimate meanin' uv th' word. This new kind uv drive really means gettin' somethin' fer nothin' fer somethin'.

They is always staged on certain days an' all th' drivers wears some particular kind uv a badge so th' other drivers wont drive them none. An' usually, them that gets drove gets a piece uv cardboard tied on 'em so as t' show th' world that they has done had their drivin'.

If you ain't been drove, witch don't entitle you t' have no card, it ain't safe t' venture out uv th' front door, fer if you can talk long enough t' out argue one driver an' finally make a get a way, you are sure t' run int' a fresh bunch uv them th' minute you round th' next corner.

The modern drive has been used fer th' benefit uv ever thing from th' starvin woodpeckers in Kamchatka t' th' prevention uv bobbed hair in China. If somebody wants t' build build a monument t' his Aunt's Perisian cat that unthoughtedly placed undue trust in th' hired man's dog, he gets him a bunch uv stenographers an' a mail-order house makin' list an' commences t' appoint county chairmen fer th' great Tabby Cat Memorial Drive all over th' land. Th' movement is ast t' be supported at all th' club meetin's by some member who has been appointed chairman on th' promise uv gettin' a engraved certificate or a copper button with a cat's picture on it t' wear in his coat lapel, an' it always passes by a majority uv one voice, all th' rest uv th' members not votin'—an' th' drive is on.

Fer th' benefit uv them that might be plannin' drives in th' near future, th' typer of these lines suggests that th' contemplatin' drivers try's th' Center road. They say its in a helluva shape. And from a personal standpoint, th' only drive that th' typer uv these lines will give his influence an' be heartily in favor uv is one fer 250 yards right down th' middle uv th' fair-way.

### GALEY

Hello everybody! How are you enjoying this fine sunny weather. Miss Bee Brecheen of Summers Chapel spent Friday night with Lela Newby.

The pie supper Friday night brought \$19.00. Miss May Flowers of Maxwell got the cake for the prettiest girl.

PROFESSIONAL SWALLOWER COUGHS UP ARTICLES

CHICAGO, March 29.—Dr. Max Torek, operating today on William Bartell, "professional swallower," removed 275 objects ranging from pins to bolts from Bartell's stomach. The collection included a dime and a beer check. Bartell did not suffer loss of appetite or inconvenience until a nail penetrated the wall of his stomach causing peritonitis, Dr. Torek said. The patient was resting nicely tonight.

## OIL NEWS

Hughes and others have a good showing of gas in the test in section 28-4-7, seven miles east of Ada. The volume of gas is estimated at one and a half million cubic feet a day. Just what the operators will do has not been announced. They will probably take some method of utilizing the fuel.

Wrightman has spudded in for the test in section 24-4-4, near Center. The well is being drilled by Ada men, C. J. Skirvin, Doc Sanbach and Jack Ketchell. These men operate under the name of the Bison Development company.

The Bison people are also drilling a well in Seminole for McDougal in section 20-6-7. They are now making hole at 2500 feet. Harvey-Maxwell company is drilling at 1000 feet in section 33-6-6. They had a good showing at 870 feet.

Slick is drilling at 1700 feet in section 18-6-7. The Daokla Oil company, in the Allen field is drilling at 850 feet in section 33-5-8.

A location has been made for a deep test three miles east of Allen in Hughes county. The location is the Watt Bell farm, but the name of the operator could not be learned.

The Wilcox well in section 28-3-4 is drilling at 1065 feet on the Kahn farm. A sand is expected around 1150 or 1200 feet.

The Dixie company is rigging up for an offset to the discovery well in the same section.

A gasoline engine has been installed at the discovery well of the Gilbert-Clarke-Dixie syndicate. Pumping will begin Sunday.

The Valerius company has the rig up for a well on the Stanfield farm in section 28-3-4.

The Floyd O. Howarth well at Francis looks like a good gasser at 1350 feet. The well cleaned itself when the gas sand was entered, in spite of there being much water in the hole. Trouble with water is delaying matters at this time, and no decision as to the disposition of the gas has been made thus far.

The Empire will probably spud in the middle of the week in the test in section 4-2-7, near Stone-wall.

Bowles and others are still closed down in section 34-5-6 waiting for casing.

The LaSelle well in section 31-5-5 has encountered trouble. The tools are in the hole and the drillers thus far have been unable to get them out. The trouble has not been determined, and it is feared the casing has given way.

SHAWNEE NOT IN NEED OF ASSISTANCE

Offers of assistance in relief work for sufferers in the tornado that struck Shawnee late Friday afternoon by the local chapter of Red Cross was declined by the Shawnee chapter with the information that organizations at Shawnee had the relief work well in hands.

Mrs. Orville Sneed, local secretary, stated Saturday.

Immediately after hearing of the situation at Shawnee, Mrs. Sneed placed a long distance call to Shawnee but impaired telephone connections prevented Mrs. Sneed receiving information from the tornado center until late last night, when she was informed that relief measures were well under way.

According to information received last night by Mrs. Sneed, eight persons were reported dead and 25 in a serious condition at a Shawnee hospital.

RENT SUIT BRINGS OUT PATHETIC STORY

NEW YORK, March 29.—A fourteen year old girl arose in district court today when the name of Mrs. Elizabeth Gerardi was called to answer a landlord's complaint of nonpayment of rent. A small boy clung to her hand.

"Are you Mrs. Elizabeth Gerardi?" asked Magistrate Genung.

She was Mary Gerardi. Her mother had died, her father had been dead for years, and she was the mother of three small brothers and a sister. "There usually is something to eat," Mary explained, "but never very much, and the rent—well, we didn't think about the rent."

When Magistrate Genung raised \$48 in court and handed it to Mary she fainted.

## COLLEGE STUDENTS TO PRESENT PLAY

"Gypsy Rover" Musical Comedy to be Presented Thursday Night.

Next Wednesday and Thursday evenings at the Convention Hall, the students of the Vocal Music Department at the college will present "The Gypsy Rover," a musical comedy, under the direction of Miss Margery Ballard.

"The Gypsy Rover" is a comedy in three acts, built around the character of Rob, later known as Sir Gilbert Howe. Rob is stolen by his nurse, Meg, who later becomes the wife of Marto, a gypsy. Rob grows to manhood among the gypsies, believing himself to be a gypsy and the son of Marto and Meg.

One day when Lady Constance Martendale is riding with her fiancée, Lord Craven, they become lost in the woods. They wander to the gypsy camp where Constance and Rob meet for the first time and fall in love "at first sight." Craven objects to Rob's attention, but in a very funny scene he is made to tell Sir George, who later comes in search of Lady Constance, that Rob is a charming fellow. Later on, Rob goes to the house of Constance and serenades her. They plan to elope but are overheard by Craven who informs Sir George, and plans are made to capture them. This is successfully accomplished and Rob is thrown into prison, but later escapes.

Two years elapse, and Rob has come into his estates, his identity having been proved by Meg. He rises, rapidly as a composer, becomes the friend of the Prince, and a social lion of the first order. Constance has remained true to her love for Rob, and on his return to England he woos and wins her for his wife. He believes "that the good fairies have led me to a beautiful country, after all, and our story, Constance, can end in the approved way, they lived happily ever after."

While the main plot is developing there are some very pretty love affairs between Nina and Captain Jerome; between Zara and Sinfio; and a delightful comedy between Sinfio and Marto.

The young people have made ample preparation to present this operetta in such a manner that it is certain to please. Miss Ballard's ability in preparing college students for work such as this is too well known to need any comment. The college orchestra will furnish the music to accompany the Operetta.

The cast of characters is as follows:

Meg, Helen Lincoln; Zara, Helen Reubens; Sinfio, Warren Collier; Rob, Lowell Turner (Leading Man); Lady Constance, Bonnie Callis (Leading Lady); The Right Honorable Lord Archibald Craven, Mr. Robert Blanks; Sir George Martendale, Burgess Steed; Nina, Wilma Scott; Capt. Jerome, Wilburn Capps; Sir Toby Lyon, Wylie Blanks; McCorkle, Albert Medlock; Butler, Clifford Dorsey.

The ton register, or unit of capacity of a ship was originally the space occupied by 100 cubic feet of wheat.

Let a News Want Ad get it.

## QUICK ACTION SAVES LIVES OF MINE FORCE

BLUEFIELD, W. Va., March 29.—The presence of mind of T. J. Dawson, who three weeks ago became superintendent of the Yukon-Poconah Coal company at Yukon, West Virginia, is credited with saving the lives of 125 miners in number one mine yesterday when an explosion claimed the lives of 26 men in number two mine. Only six of the men in number two mine escaped. When the blast came Superintendent Dawson was near the entry leading between the two mines. Realizing what had happened he rushed into number one to warn the men there. Some of these workmen were injured by the force of the explosion.

All bodies of victims were recovered last night from the mine, which was the scene of a similar disaster in 1919 when eighteen men lost their lives.

## SHRINE CIRCUS PROVES SUCCESS

Local Club Realizes \$650 to Aid in Their Campaign For Temple Here

With the able assistance of the local Shrine club the performance of Honest Bill Newton's show, given for the benefit of the campaign for location here of a Shrine temple, went over in great style, threatening weather to the notwithstanding. After a preliminary check on the finances those in charge say that the Shriners will have about \$625 to add them in their drive on Kansas City.

Following a parade of the show through crowded streets on Friday afternoon Honest Bill presented a fall program before a capacity crowd, which filled the seats and forced many to stand around the arena in which the artists employed by the show were busy entertaining the gathering. Honest Bill estimates that the afternoon crowd at between 1150 and 1250 people.

The school children of the city were present in great numbers, responding to the appeal of the animals and clowns. They were especially delighted with the antics of the clowns and the skill of the trained dogs.

The animal tent came in for its share of attention, nearly all of the animals owned by the show being on display.

Throughout the performance, which included acts ranging from displays of horsemanship, trained dogs, aerial thrillers, and encounters with the stubborn lions, the attention of the crowd was held on the scene before them as act after act followed in close order.

Local Shriners were busy during the entire performance catering to the taste of the crowd with peanuts, candy, and soda pop.

In the evening another performance was given, this time to a crowd considerably diminished because of the threatening weather and reports of disastrous winds in other parts of the state. The number present was estimated at 500.

The proceeds of the show were turned over to the local club by Mr. Newton to aid in continuing their drive for the location of a Shrine temple at Ada. Armed with a petition bearing hundreds of signatures gathered throughout this section of the state the Shriners plan to carry the campaign through to the national meeting in the hope of securing for Ada a temple to be named Delphi.

## TWO MEN BELIEVED DEAD IN UTAH SNOW SLIDE

PROVO, Utah, March 29.—Two men are believed to have perished today when 50 men were caught in a snowslide near Bridal Veil in Provo canyon east of here. All but two were rescued. The men were at work clearing the road of debris caused by a slide yesterday when the snow crashed down.

A bridge across the Provo river at Bridal Veil was wrecked and many feet of the railroad covered with tons of snow.

The Choctaw railroad, now the Rock Island, ran its first train into Oklahoma City in 1895.

## POLICE CLAIM STOP LINES BEING PASSED

The police department is again on its official ear and as a result strenuous measures will again be adopted to force motorists to observe the stop lines on streets leading into Main street.

Various reports of narrow escapes by pedestrians and motorists as a result of auto drivers failing to stop on the white lines blocking off Main street.

So numerous have become the complaints that the police department is planning to again patrol the streets and conduct violators to the police stations to face fines or jail sentences.

According to reports from the police department, the stop lines on Mississippi and other tributaries near the College are being neglected most seriously.

## GOLF CLUB PLANS IMPROVEMENT

Changes in Course to be Big Benefit for Local Fans.

Expensive improvements have been made in the course of the Ada Golf and Country Club during the past winter under the supervision of A. J. Showers, ground keeper. Not being content with having the best natural course in the state, with a par of 34 for the nine holes, the greens committee decided that the coveted par could be made still more difficult by making a few slight changes in the course.

Heretofore, all the greens have been round. In the future, Ada golfers will find all form of geometrical design used as a model for the shape of their greens. Green number one is now a square of 40 feet on a side. It is also admirably guarded by sand traps that will catch every erring approach shot.

Green number two is still round in shape but considerably larger in diameter, and on the approach side, it is necessary to execute a mashie shot of no mean skill to get up on the green. The shot that's over will also run into a big half-moon bunker on the opposite side of the green. Green number four has also been remodeled. It is now about twice as long as wide and the cup a little to the left of center from the approach side. Number six is being rebuilt entirely, considerably larger in size but nearer to the edge of the bluff. This is the shortest hole on the course and the tee shot that stays on the new green will need to be skillfully executed.

Other improvements are also being made in the fairways, and the other greens will come in for their share of alterations as soon as it is possible. Golfers state that there is evidence of quite a bit of enthusiasm in the Ancient and Honorable game as the first buds of spring begin to peep.

In a letter to the secretary of the local club a few days ago, a member of the Holdenville club stated that they would bring their best material to Ada in the near future for a match. The challenge will be accepted and the time of the match announced in advance to give those who desire to see the play the opportunity to attend.

## NOTICE OF SALE OF OIL AND GAS LEASE STATE OF OKLAHOMA, County of Pontotoc, ss. IN THE COUNTY COURT Probate 2278.

Notice is hereby given in pursuance of an order of the County Court of Pontotoc County, State of Oklahoma, made and entered on the 11th day of March, 1924, the undersigned guardian will offer for sale and sell at public auction to the highest and best bidder an oil and gas mining lease on Monday the 31st day of March, 1924, at 10 o'clock A. M., the following described lands situated in Carter County, State of Oklahoma, to-wit:

The West half of Southeast quarter of Northwest quarter, and Southwest quarter of Northwest quarter of Section 22, Township 4 South, Range 3 West, and North 19.41 acres, and Southwest 10 acres and Southeast 10 acres of Lot 4, of Section 3, Township 4 South, Range 1 East, containing 100 acres, more or less.

Said oil and gas lease will be sold on the following terms and conditions, to-wit: Cash in hand upon confirmation by the court.

Said sale to be held in the County Court room of Carter County, Oklahoma, Ardmore, Oklahoma, at the time above stated.

Dated this 11th day of March, 1924.

CHAS. T. BATES, Guardian.  
Busby and Harrell, Attys for guard.

## TUPELO BUSINESS MAN DIES OF APOPLEXY

Word was received Saturday of the death of George W. Saint, prominent business man of Tupelo, died early Friday morning of apoplexy. The funeral services were held Friday afternoon and the body interred in Tupelo cemetery. The wife of deceased preceded him in death by only two months.

## SENATOR LA FOLLETTE REPORTED IMPROVING

(By the Associated Press)  
WASHINGTON, March 29.—An improvement was noted by physicians today in the condition of Senator LaFollette, of Wisconsin, who is fighting an attack of bronchial pneumonia.

## COUNTY TO GET TWENTY THOUSAND IN TAX REFUND

Pontotoc county will be entitled to something more than \$20,000 from the state under the terms of the tax refund bill just signed by Governor Trapp, according to J. W. Westbrook, county treasurer. He has already turned in the claim of this county and the money may be expected to arrive in the near future.

Mr. Westbrook said that when he receives the money taxpayers desiring refund should call at his office and if they have the receipts for the 1920 taxes, paid in 1921, they should bring them, but if these have been lost it can be arranged anyway.

The refund applies only to state taxes for that year based on a rate of a mill and one-half, or 15c on the \$100 valuation. Hence any taxpayer can figure from his receipt how much he will get back. For example if he was assessed at \$500 above his exemption he will get 75c and so on.

**Cards of Thanks.**  
I wish to thank the many friends, especially the business men who were so generous in helping me win the bicycle—a premium offered for 25 three months subscriptions to Tulsa World.—Charles Raymond.

## BERGDOL NOT TO RETURN TO UNITED STATES, CLAIMS

Eberbach, Germany, March 29.—Grover Cleveland Bergdol, American draft evader, whose departure from his hotel here early in the week was the reason for reports that he was on his way to the United States, returned to the hotel here today. He said he was not making preparation to return to the United States.

**State Domestic Foul**  
John and Robert Brandell were arrested Saturday by deputies from the sheriff's office on commitments from a justice court charging larceny of a domestic fowl. The brothers were placed in the county jail to await preliminary hearing.

**One Killed in Wreck**  
KRANKFORD, Ky., March 29.—One man was killed and two severely injured when a passenger train on the Beattyville branch of the Louisville & Nashville jumped the track at Trundo, about three miles east of here today.

**Operators and Miners Sign.**  
PHILADELPHIA, March 29.—Operators and union miners of the central Pennsylvania bituminous coal field today signed an agreement continuing the present wage scale for three years.

**LOVELADY**  
School is progressing nicely though there are a few absences on account of sickness.

Owing to the conditions of the weather, Sunday Rev. Luther Brannon was here with only for the eleven o'clock service.

Mr. and Mrs. Marvin Kizer who have spent the last several months at different points in Texas, took her home folks by surprise by their unexpected return Sunday evening.

Mrs. J. L. Ross is reported on the sick list this week.

Mr. and Mrs. Elmer Lillard and little daughter, Clara, were visiting relatives in the Lovelady community Monday.

Misses Thelma and Stella Landrith, Messrs. Loss Henry, Earnest and Jim Landrith and Woody Bigem attended services at Lovelady Sunday.

The B. Y. P. U. met Sunday night but the roads being so muddy not many were present, but there were enough to have a good program.

John Massey, Orphus Massey, Walker Massey, Eulas Brannon and Juell Moore visited the school Friday afternoon. During the time they were with the school an interesting game of ball was played.

The annual school election was held at the school building Tuesday afternoon from 2 o'clock till 4.

A very good interest was manifested by the presence of a number of the citizens.

The Parent-Teachers Association of Lovelady meets, April 4 at 7:30 P. M. at which time the following program will be rendered:

The house called to order by the president.

1 Opening song by the school.  
2 A life lesson—Howard Jared.  
3 The Recessional—Herman Brannon.

4 Writing a Letter—Elizabeth and Vela Sliger.  
5 Reading—Ila Pendergrass.  
6 The Bond Girl—Ruth Allen, Valley Sliger, Lavonia Jared and Ruth Taylor.

7 Speech—Elitus Massey.  
8 Aloha, O—Ora Massey, Ola Tollison, Stella Ross, Noweta Moore, Flead Potter and Vera Sliger.  
9 Little Blossoms—Vivian Kelly.

10 Reading the Weekly Banner—Ola Tollison, Ora Massey and Buster Jared.  
11 Quartette, "My Arkansas Home"—Miss Thelma Landrith, Loss Henry, Eulas Brannon and Earnest Landrith.

12 "What became of the false teeth"—Arthur Massey, Stella Ross, Ila Pendergrass, and Herman Brannon.  
13 Song—Mrs. Edd Massey and Miss Onalee Summers.

14 Painting the chair—Ora Massey, Luke Taylor, Herman Brannon and Robert Ross.  
15 What is expected of the teacher—A. Floyd.  
16 "The Parent's Duty"—Mrs. Duval.

17 America The Beautiful—  
DUBLIN.—Vigorous steps are being taken in the Free State for the collection of the arrears of income tax, which during the troubled times before and since the treaty, were allowed to accumulate. In Dublin City and county, collections have been made by distraint on the defaulters' goods, and in some instances defaulters have been lodged in jail till the money was paid.

## ADA HI BASEBALL TEAM GETS BUSY

Diamond Stars Working Out For Career This Season

With the coming of fair weather a large number of high school boys have begun appearing on the athletic field each afternoon to devote their skill and ability in an effort to secure a coveted place on the high school baseball team. Coach Cox has a fine squad of youngsters from which to choose his players.

Included among the aspirants are enough old heads at the game to form the nucleus for a strong team. Competing with these are many who are yet lacking in experience. Each position has a group of candidates.

Mr. Cox believes his pitching staff will be especially strong as he has four, and possibly five, good twirlers in prospect. Ben Page, G. Burkhardt, Carmen Hargis, and George Fuqua the last a left-hander will handle the pitching end of the season's work.

Floyd and Deaver are two experienced infielders and will probably hold down second and short. Outfielders are plentiful, some of the best at present being Wadlington and C. Burkhardt, with many others working hard for recognition.

Mr. Cox has not arranged his schedule as yet but expects to find plenty of games when warmer weather comes. He is confident of making a good showing and says he thinks prospects the best in his coaching experience.

## STRINGER PREPARES FOR DEMOCRAT CONVENTION

Chairman C. W. Stringer of the Democratic county committee has mailed letters to the various members of the committee calling for a meeting of that body at Ada April 5 for the purpose of arranging the details of the calling of the precinct and county conventions.

The precinct conventions will be held April 22. In rural districts these will be held at 2 p. m. and in cities at 8 p. m. The precinct conventions will select delegates to the county convention which will be held April 29. The ratio of representation will be fixed by the county committee at its coming meeting.

The counties will be allowed one delegate for each 100 Democratic votes in the last presidential election. This will give Pontotoc county 19 delegates.

The object of these conventions is to select delegates to the national convention which will make the nominations for president and vice-president.

## Would Stretch Army Bill

WASHINGTON, March 29.—An unsuccessful attempt was made in the house today to include in the army appropriation bill a request to the president to negotiate with other nations for a conference to discuss limitations of land armaments.

## OBITUARY

Mildred Choate  
Mildred, the three-months-old daughter of Mr. and Mrs. J. B. Choate, died Saturday morning at the family home four miles west of Ada. Funeral services and interment today at 10 o'clock at Egypt cemetery.

## FINAL CHAPTER NEAR CLOSE IN ELECTION

The final chapter in the city election will be written Tuesday when the voters go to the polls to register their verdicts.

It happens this time that all nominations were settled in the primary with two exceptions, hence the voting for the unopposed nominees will be a mere matter of form.

The two races to be settled Tuesday are those of commissioners of public works and property and member of school board. In the first named the contestants are Walter Smith, present incumbent, and Henry Kroth, they being the high men in the first race. The other is between R. F. Wilbourn and Robert Bradley.

The post-primary campaign has been as quiet as the one preceding it, the candidates and their friends confining their efforts to personal solicitation of the voters. This year will go down in history as one in which oratory had no part, not a single speech being made.

## Lindsay is Winner In Debate Against Ada High Orators

Lindsay high defeated Ada high school in text to the final debate of the season Friday evening at the First Baptist church. The decision of the judges was 2 to 1 in favor of Lindsay.

The debate was a very brilliant affair and the young contenders presented their arguments in a highly creditable manner.

Lindsay, on the affirmative, was represented by William Lester, Athon Justice and Miss Patty Horn. Ada's team was composed of Robert Naylor and Misses Dixie Lee Russell and Virginia Webb who have participated in the six or seven debates in which the high school has been represented this year.

Let a News Want Ad get it.

## THE NEW WORLD BEGINNING

LIFE, perfect, limitless; with a regenerated race; on a restored earth; with a corrected climate and life-perpetuating food; under a Government which will satisfy the righteous desire of every living creature. And it's HERE at the door! Portals of the new age are swinging open and many will enter and never die.

The old order is passing away, the new order is here. Christ Jesus is taking unto Himself His great power and beginning His reign. The Kingdom of Heaven is at hand.

## PARKER-HOGGINS

The marriage of Mr. A. C. Parker and Miss Dorothy Hoggins was solemnized Friday evening at 7 o'clock at the home of Rev. and Mrs. E. F. Stegall, 412 West 10th, Mr. Stegall performing the ceremony.

## FEDERATED CLUB SELECT OFFICERS FOR YEAR

At the business session of the Eighth District of Federated Women's clubs at college Friday afternoon, all of the officers were re-elected to serve for the coming year except the office of treasurer which was held by Mrs. F. J. Loomer of Tishomingo, who resigned on account of pressing business matters. The new treasurer is Mrs. J. M. Williams of Norman.

The 1925 convention will be held at Pauls Valley.

## MRS. BAUER HOSTESS TO BIDE-A-WEE CLUB

Mrs. H. E. Bauer, 835 South Stockton, was hostess to the Bide-A-Wee club Tuesday afternoon when a profusion of begonias were used for house decorations. A delightful salad course was served to Mesdames J. W. Dean, J. B. Hill, L. P. Carpenter, J. C. Gowing, L. E. Burnham, L. E. Vaughn, W. J. Coffman, Roy Rains and S. D. Roberts.

Mrs. J. W. Westbrock will be hostess at the next regular meeting.

## Mrs. Calky Visitor.

Mrs. O. H. Calky, of Forgan, Beaver county, vice-chairman of the democratic state committee was here Monday attending the Eighth District meeting, Oklahoma State Federation Women's clubs. In addition to being a leader of the Democratic forces of the state, Mrs. Calky is also a pioneer club woman, having helped organize many of the first clubs of the state. At present she is president of the Third district. She stands for the best in politics and club work, looking always toward the betterment of home life. Mrs. Calky is the mother of six children.

## BRIDGE LUNCHEON FOR BRIDE OF WEEK

A beautiful bridge-luncheon honoring Mrs. J. E. Hale, a bride of the week, was given by Miss Pauline Tidwell and Mrs. Aubrey Kerr Wednesday evening in the home of Miss Tidwell. Pink and white carnations were used for decorations and favors.

Those seated with the honoree were Mrs. C. J. Ebert, Mrs. H. E. Bauer, Mrs. M. H. W. Smith, Mrs. Jack Banks, Misses Bernice Beach, Laurina Feiler, Schmidt, Grace Bean, Golden Williams, Ruth Gibson, Ludie Hawkins, and the hostess Mrs. Kerr and Miss Tidwell. A miscellaneous shower of gifts was presented the bride by Little Margaret Kerr.

## MR. AND MRS. GEORGE BURRIS ENTERTAIN HOUSE GUESTS

Mr. and Mrs. George Burris of 831 East Fifteenth street entertained at 6 o'clock dinner Thursday evening honoring her house guest and aunt, Mrs. Czarina Colbert Conlan of Oklahoma City and the following out of town friends who were delegates to the first meeting of the Eighth District Federated clubs: Mesdames W. T. Ward of Tishomingo; Earl Crumpton, H. L. Deal, H. W. Henry, Ed Shirley of Wynnewood and Mrs. Cora Chisholm McKee of 117 East Tenth.

The color scheme of yellow and white was carried consistently throughout the six course dinner from the center piece of yellow jonquils and white carnations. The place cards to the ice course of orange Angel food cake and brick cream.

## MES. DEAN AND HOOPER ENTERTAIN SCHOOL CHILDREN

The Parent-Teachers association of the Washington school, under the supervision of Mrs. J. W. Dean and Mrs. Sid Cooper, assisted by Miss Lois Bell, gave an entertainment to the Seventh and Eighth grade students Thursday in the school auditorium.

A party was offered as a reward to the grade raising their part of the money to attend the rendition of the Little Symphony orchestra, which appeared here some time ago.

The Hays school orchestra under the leadership of Mr. Guy Meaders furnished the music for the evening. After many games were played during the evening those present were served with refreshments of sandwiches, cake and hot chocolate.

## DELPHIANS ENTERTAIN EIGHTH DISTRICT DELEGATES

As a fitting climax to the many lovely and gracious social courtesies tendered the club women, individually and collectively of the Eighth District was the Delphian Tea at the spacious home of Mrs. Cora Chisholm McKee of 117 E. Tenth. The brilliantly lighted home, odoriferous and beautiful with cut flowers of sweet peas, carnations and roses blending with orchard blossoms of peach plum and pear was a marked contrast to the work, disastrous storm prevailing outside. Mrs. H. W. Wells in her own special affable way after greeting the guests at the door of the reception hall passed them in to Mrs. Wimbley who graced the guest room and in turn piloted them upstairs to that wonderful fifty foot square attic of the McKee boys where Mrs. J. E. Hickman presided over the guest registrar. Here after the registering of 51 guests whose names will follow: Mrs. Alvis, Roff, chairman of the Delphian conference

took charge, Mrs. R. W. Couch the newly elected president of the Ada Delphians representing Mesdames J. E. Hickman, J. E. Lucas, R. C. Jeter, J. M. Duncan, Mrs. Robt. Wimbley, A. W. Wells, E. Murray Lucas, W. H. Bullock, Ed Granger, R. H. Herndon and Cora C. McKee welcomed the visitors sincerely and graciously. Miss Crumley rendered an enjoyable piano selection. Miss Heathman also of Roff delighted the guests with a vocal solo. Dr. Winnie Sanger, president of State Federated clubs in her own inimitable way practical and applicable gave her version of Delphian Work. This being a Delphian conference the Round Table discussion was opened by Mrs. F. S. Yarger of Madill entered into by Mesdames Earl Crump of Wynnewood, Ingram Henry of Ardmore, Green and Garland of Ureell, Hiwick of Ardmore, Mrs. W. T. Ward of Tishomingo. Closing the discussion by giving the official phase and legal status of Delphian study clubs chartered and incorporated. Repairing down stairs to the Halls and dining room, the guests directed by Mrs. H. W. Wells, a delightful plate and ice course in the color scheme of pink and white was served by Mesdames Lucas, Herndon, Jeter, Wimbley, McKee and Miss Lucas.

Mesdames Webster and Duncan at the tea table dispensed "The Cops that Cheer but do not inebriate, Tea and Coffee."

There were 12 delphian clubs represented in this conference and with the forty clubs of the Eighth District made this hospitable home indeed ring with a flow of reason and feast of soul where youth, beauty and wisdom in turn held sway.

The guest list follows: Mrs. W. T. Ward, Tishomingo, sister and house guest of Mrs. McKee; Mrs. E. B. Bugher, Salisaw; Mrs. Geo. Alvis, Roff; Mrs. Luther E. Green, Purcell; Mrs. Hiram Garland, Purcell; Mrs. M. F. Manville, Ada; Mrs. M. A. Waits, Ada; Miss Geneva Heathman, Roff; Miss Dorothy Crumby, Roff; Miss Maud O. Thomas, Beaver; Mrs. Byron Norrell, Ada; Mrs. Ingram Henry, Ardmore; Mrs. Michael Conlan, Oklahoma City; Mrs. O. H. Calky, Rorgan; Mrs. Tom Hope, Ada; Mrs. Author Walcott, Ardmore; Mrs. E. C. Wilson, Ada; Mrs. Ethel M. Perry, Sulphur; Mrs. Geo. W. Hicks, Ada; Mrs. F. H. Wozencraft, Ada; Mrs. T. C. McCormack, Ada; Mrs. A. Linscheid, Ada; Mrs. J. M. Williams, Norman; Mrs. Henry M. Carr, Pauls Valley; Mrs. Sam A. McKee, Ada; Mrs. G. W. Burris, Ada; Mrs. F. L. Yarger, Madill; Mrs. C. H. Jones, Roff; Mrs. T. S. Shirley, Wynnewood; Mrs. T. H. Smith, Roff; Mrs. J. P. Herick, Ardmore; Mrs. W. C. Bolling, Davis; Dr. Winnie Sanger, Oklahoma City; Mrs. W. E. Crump, Jr., Wynnewood; Mrs. M. H. Deal, Wynnewood; Mrs. W. B. Duncan, Mrs. Ed Granger.

## MRS. FISHER PRESIDES AT FINE ARTS PROGRAM

Mrs. Ray Fisher of Norman, presided in her charming manner for the Fine Arts program. In her report Mrs. Fisher stressed the benefits to be derived from junior federated music clubs. Mrs. Anglen gave the district report of work done in art and announced the names of the winners in the art exhibit. Misses Frances McKinley and Mary Frances Duncan of Ada won first and second state prizes. Mrs. L. B. Dupree of Sulphur and Mrs. B. M. Bobbitt of Ada won the prizes for still life offered by the district. Mrs. C. A. Reid of Pauls Valley and Mrs. L. B. Dupree won first and second prizes for best landscapes.

A most interesting musical program was rendered by representatives from Ardmore, Ada, Roff, Davis, Pauls Valley, Norman and Coalgate. Miss Strite of the violin department of East Central Teachers College accompanied by Mrs. Emanuel of the piano department, played "Spanish Dance" by Redfield in her usual excellent style. Mrs. Harry Kessler of Ardmore accompanied by Mrs. Walter Lindsay of Ada, gave two musical readings in a bright fashion. Roff's promising young representative, Miss Dorothy Crumley, played Rubinstein's Staccato Etude. Miss Hutchins of Davis played with much feeling and with delightful lightness and grace. Mrs. Fred Rennie of Pauls Valley ably accompanied by Mrs. Patchell, sang "Merry Springtime" with sureness of pitch and pleasing quality of voice.

Mrs. Leslie Martin of Norman accompanied by Mrs. C. H. Black, won round after round of applause following her rendition of "O Thou Billowy Harvest Field." Mrs. Martin is a most accomplished artist who has had training with the well known Chas. W. Clark of Chicago.

Mrs. Freeman of Coalgate played Chopin's Scherzo in G sharp minor in mastery style and generously responded to an enthusiastic encore. 8th district delegates were indeed fortunate in hearing such an artist. Mrs. Freeman after receiving her B. M. degree in her native state of Oregon spent three consecutive years studying in Berlin and has only recently moved to this state.

Our beloved president, Dr. Winnie Sanger, spoke in her inimitable manner on "The Rules of the Game," bringing inspiration, renewed courage for another years work, greater respect for the achievements of our co-workers and above all joy to think that we have the opportunity of sharing in the great work of Womens Federated Clubs.

After singing "God Be With You Till We Meet Again," Mrs. Bolling announced the adjournment of this first convention of the Eighth district.

## THE SCARF'S THE THING

No self respecting spring frock considers itself complete unless it boasts a scarf, either worn separately, or attached to the dress, as in the case of this charming costume, which achieves gracious lines through its long tulle printed in a modernized floral design in black and dull red on Mongol blue crepe de chine. The underslip and scarf are of matching Krisal-krepe. Scarves, we learn from a late Paris bulletin from Henri Creange, are in great vogue. They are worn fitting well to the neck and not loose as last year. They may be tied in a knot or worn with two long ends falling in front, or with one end thrown over the shoulder, the other falling in front. In much variety can be given to the simplest dress by this charming accessory that we should not be at all surprised if there were developed a language of the scarf, just as there is a language of flowers or of the fan. The French couturiers cut these scarves sometimes from the new printed silks, which are made with the design running across the fabric in wide bands, for this very purpose. The leading silk makers, like Cheney, also show long separate scarves with lovely designs printed on them. With a variety of scarves like these, and a few simple one piece summer dresses, a wardrobe of great charm and distinction can be evolved. Talking about printed silks—which, by the way, will be worn more than ever in the coming spring season, the designs on the new dresses will reward study, for they are as interesting as the dresses themselves. The pattern in the picture represents impression of flowers growing in a field, seen as he skinned by in a high powered motor car.

## COLLEGE NOTES

President Linscheid, in company with the college quartet, visited Pauls Valley and Purcell Saturday.

The office force of the college is still busy mailing out bulletins of the summer term. The bulletin this year is the most ambitious publication of the kind ever published by the college here, and is expected to contribute considerably to the numerical success and advertisement of the coming summer session.

Mrs. R. R. Robinson, wife of Professor Robinson, is very low. She is in a hospital in Oklahoma City. Mrs. E. C. Wilson and the mother of Mrs. Robinson left for that place yesterday. Mr. Robinson was called there some days ago.

The college campus is now graced by a new flagpole, placed in the center of the walk leading from the entrance to the main building and towering 65 feet in the air. The new flagpole, which will display the country's banner every day, adds much to the appearance of the campus.

The college has enjoyed its privilege during the past week of entertaining the district gathering of representatives of Federated Women's Clubs.

The new quarter term, which began a week ago tomorrow, has settled into a pace that will carry East Central to a triumphant conclusion of the best year of its history.

The past three terms have been marked by a steady enrollment that has placed the local teachers college at the head of the six state teacher colleges in point of size. To meet this growth it has been necessary to add several faculty members to the teaching force.

The total enrollment for the year stands now at over 1,300 with a resident total of between eight and nine hundred students.

The college is expanding in every department, education, agriculture, and English classes proving most popular. The science department has taken on new life and is growing steadily in size and interest. Interest in athletics is keen and all teachers are kept busy with crowded classes.

This year's work has led up almost to time for what is expected to prove the greatest summer session in the history of any of the teacher colleges of the state. A tremendous increase in size of the summer term is evidenced by letters of inquiry received daily.

**Ireland Invites U. S. Lawyers**  
DUBLIN.—The Irish bar is issuing an invitation to the members of the American and Canadian bars, who are coming to Great Britain in July as the guests of the English legal profession, hoping that they will extend their visit to this country.

Irish legal affairs are in a situation specially interesting to legal experts, for the whole judicial system is being recast, and visitors would witness the period of transition from the ancient to the modern methods. The experiment of the working, for the first time in these islands, of a written constitution is also likely to prove interesting.

## PICKETT

Rev. M. N. Wesley filled his regular appointment here Sunday.

The singing was omitted on account of bad weather.

Barney Philpot, who has been very ill with the measles for the past few days, is reported better at present.

Miss Davenport the primary teacher was absent from school Monday. She and Mrs. Robertson attended the funeral of Mrs. Duvall's mother at Oakman cemetery.

Mr. Bulloch went to Okemah Friday to visit his daughter, Corine and Elizabeth.

The reading contest in which the third and fourth grades have been engaged closed last week. Ralph Ferguson was captain of the winning side of the third grade and Edward was leader of the fourth grade.

Oba Robertson performed the duty of primary teacher Monday.

The Sunbeam band will meet at the church Sunday afternoon, at 2:30.

B. Y. P. U. will meet at 7:00 Sunday evening. Every member is urged to come and bring someone with them.

Preaching service will begin at 8:00 p. m. The subject of the evening sermon will be "The One Needful Thing." Text: Mark 16:15.  
The W. M. S. will meet Monday evening at 2:30.

Prayer meeting at the church on Wednesday evening at 7:30.  
All members are urged to attend these meetings and visitors are welcome.

JOE B. RIVES, Pastor.

**First Baptist Church.**  
Sunday school begins at the First Baptist church at 9:45. We have classes for all ages. We had a total attendance last Sunday of 649 at the church proper and 47 in the westside mission, making a total of 696 in all our schools. You are extended a cordial invitation to be present today.

The Men's Bible Class meets at the McSwain theatre at 9:30. This is the last Sunday of the contest between the Reds and Blues. The Reds are in the lead thus far but the Blues are talking revenge this last Sunday. They can win even yet if they should bring in as many as fifty or sixty new ones today.

Mr. Ellison will teach the lesson. The banquet will be given next week. Definite announcement will be made this morning.

The pastor will preach at the eleven o'clock hour. We will have congregational singing.  
The Sunbeams will meet at three o'clock in the afternoon with Mrs. Strickland.

The Bible Study Class will meet

Friday and Saturday of next week holds much in store for Pontotoc county scouts with the opening of the annual scout exhibit for those dates, according to the announcement of Scout Executive Harry Miller Saturday.

Listed as one of the big events of the scout year, exhibits of every kind of scout work will be laid bare to visitors, scout executives and others who will pass on the merits of the youngsters and judge the winners for awards offered in the scout work.

The exhibit will be arranged in the Pontotoc building, every troop in the county having a part in the two-day affair. In a program for Friday evening, scouts will listen to the address of E. E. Voss, regional scout executive and one of the foremost scout leaders in the country.

In the Friday night program a demonstration of scout work, musical renditions by scouts and a program of funny stunts by scouts will be in store in addition to the address of Executive Voss.

Scout Executive Miller in anxious that all scouts hear Voss, who has taken an active part in scouting for the past several years. Voss is one of the two men who were sent to France to instruct French executives in the art of scouting.

Miller stated that local troops have been preparing for the exhibit for several months and showings of scout work promise to be in tip-top condition.

Following are the prizes offered for the exhibit:

## Prize Awards.

Prizes are offered by the Mac-

at 6:30. Mrs. Kilpatrick will teach the lesson. The public is cordially invited.

The B. Y. P. U. will all meet at 6:30. Mrs. J. C. Treadwell is the superintendent of this department. The evening service will begin at 7:30. The pastor will preach an evangelistic sermon and the unsaved will be urged to accept Christ as Savior. At the close of the evening service, the ordinance of baptism will be administered. The public is invited to all our services.

CLYDE CALHOUN MORRIS, Pastor.

The Ada Lions Club offers a free camping trip to the patrol of Ada Scouts who put on the best exhibit as a patrol exhibit. Trip to Turner Falls.

The Ada Lions Club offers a free camping trip to the patrol of rural scouts who put on the best exhibit

## RADIO MAKES MANY FRIENDS FOR SOUTH DAKOTA INFANT

(By the Associated Press)

PIERRE, S. D., March 27.—During the course of his 20 years as a passenger train conductor, Dana McNeil, 63 years old, has become known at every station on his "trick" between here and Rapid City as "Radio Dana." As a direct result his son, Bobbie, 14 months old, has a wider circle of friends than any grey-haired statesman in South Dakota, according to Bobbie's mother.

"How is Bobbie?" came a query from Chicago, Alaska, not long ago, and in the same mail a grand-ma from down in central Illinois inquired in the spirit of a life-long friend, "Did Bobbie sleep well last night?"

The explanation is that the train man has a room in his home here almost completely disguised as a radio cabin on an ocean liner. He has more than \$2,000 worth of ap-

paratus including a 100 watt sender and a cage aerial with a 160 foot span. Incidentally, the whole house is wired for convenient use of his amplifier.

Every other day at noon the conductor checks in his train at Rapid City and hurries to the radio receiver of a friend. He tunes in at 12:15 o'clock, and without fail begins to hear news of Bobbie. Mrs. McNeil talks for 30 minutes, having both first and last words. The wireless news letter is repeated at 6:00 o'clock that night. Bobbie chiming in at intervals with a vocabulary now numbering six words.

The innovation has been progressing for more than a year. Messages of appreciation addressed to station 9-CLS have come in from Alaska, California, Texas, Virginia and any number of intervening points.

## CHAMBERLAIN GETS INTO TREASURER'S RACE

The News is authorized to announce the candidacy of Albert Chamberlain for the office of County Treasurer of Pontotoc county, subject to the Democratic primary, August 5, 1924.

Mr. Chamberlain has a wide acquaintance in the city and county and he numbers his friends by the hundreds. He was born in Florida and principally reared in Oklahoma, coming here 31 years ago. He has lived in and around Ada since that time. For the last several years he has been in charge of the books for the Farmers Cooperative Store here in Ada. He has made good in all the positions he has held.

Albert made the race for this office two years ago, and was defeated by a small margin in a three cornered race. He expects to succeed this time.

Those who know of Mr. Chamberlain's work say he is well qualified for the position by nature, training, and willingness to serve the public. They believe that he will make a record in this important office that will be a mark for subsequent holders to aim at.

PARIS.—During 1923 there were exported from France 28,261 motor cars valued at 730,337,000 francs and there were imported 8,400 cars for which French buyers had to pay 577,775,000 francs.

The higher value relatively of the imported over the exported automobiles was due to the value of the franc as compared to the dollar and sterling. Most of the imported cars came from the United States and England.

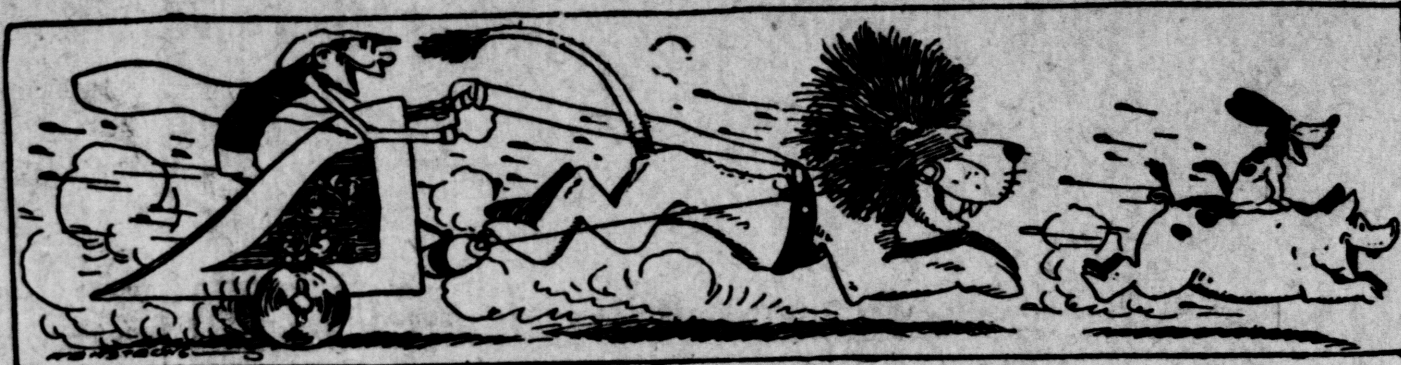

## Doctor to Airplanes Becomes New Profession in Europe

LONDON.—The vogue of flying in virtually all countries has been the means of creating a demand for an airplane "physician and surgeon."

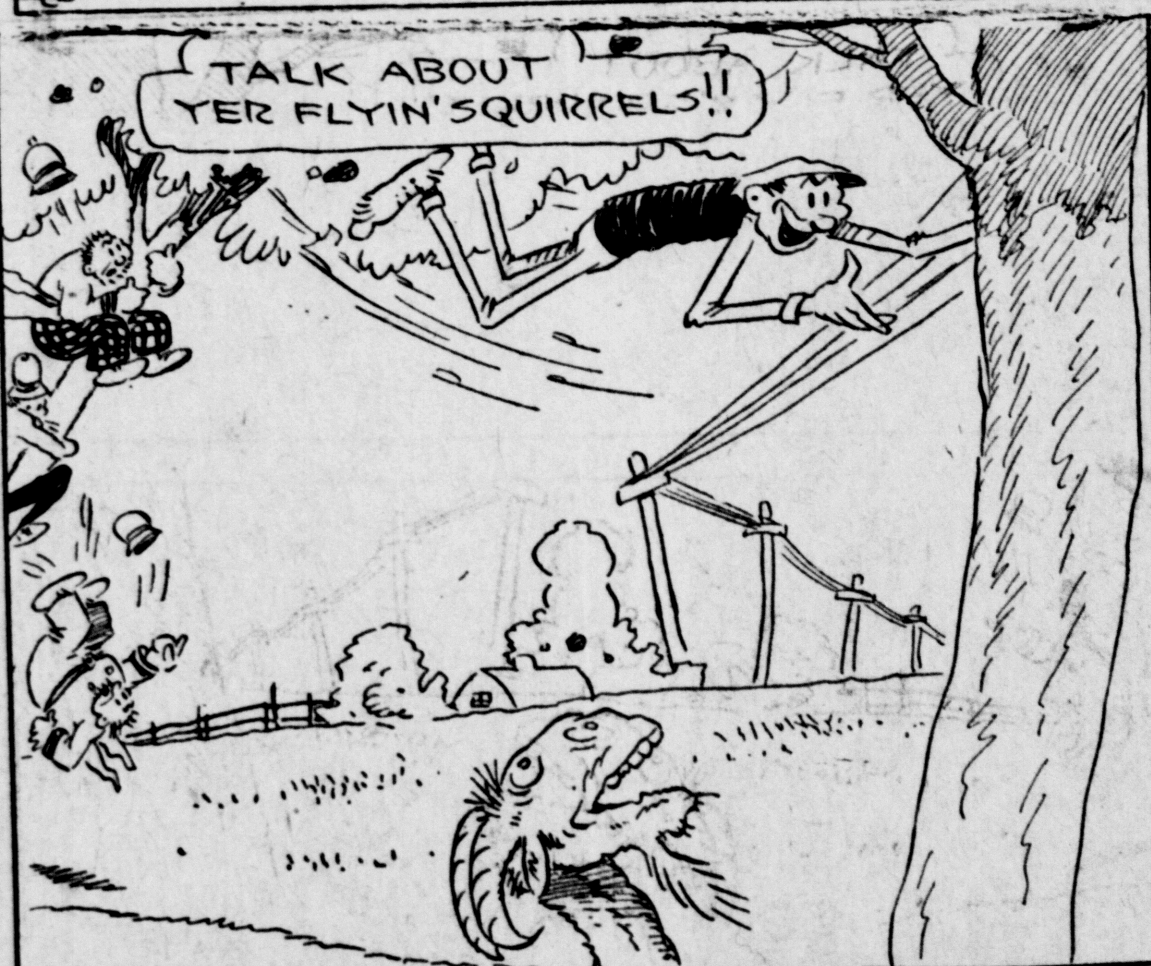

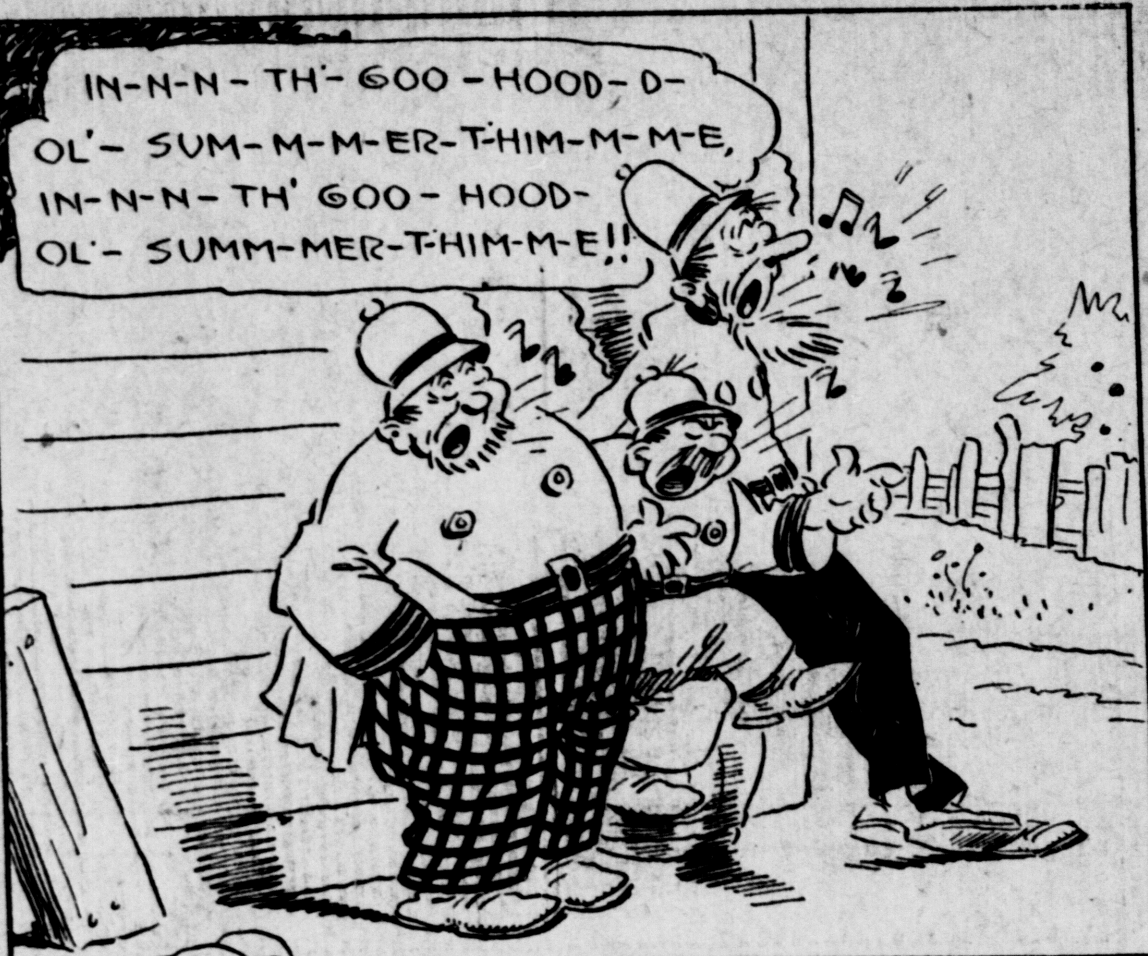

This profession has been taken up by Frank Courtney, who won the King's Cup airplane race here last year. He has been on the continent testing out new machines, and has now left for the Arctic circle where he will put new machines through their paces. Several other pilots are acting as consulting "surgeons" to airplane makers. When a firm finds any particular plane is not behaving quite as it should, the "doctor" is called in to spot the trouble and put it right.

Lead is largely used in glazing pottery and porcelain.

## BIBLE THOUGHT FOR TODAY.

LOVE, JOY, PEACE, LONGSUFFERING, gentleness, faith, meekness, temperance: Against such there is no law.—Gal.5.

The Oklahoma City News and Tulsa Tribune writers who covered the Jackson Day celebration at Oklahoma City at which former Senator Bailey of Texas was one of the principal speakers, express the opinion that the Texan was something of a frost so far as arousing enthusiasm for the party in Oklahoma was concerned. The News says that Luther Harrison's address was far ahead of that of Bailey in the matter of eloquence. The fact is that the Joe Bailey of today is a far different man from the Joe Bailey of 30 years ago. Loss of prestige has embittered his nature and of recent years his utterances have been mostly of a pessimistic nature. Nothing meets his approval and the country is headed for the jumping off place, according to his expressed views. Bailey has had his day but it is hard for him to reconcile himself to the idea that he is no longer a leader of the party idolized by an admiring public. Bailey lives in the past and his speeches are in the nature of a lamentation about other days when times were different to what they are now. Like the raven of Poe's poem his refrain is "Nevermore." When one remembers Bailey as he was in his prime he can but regret the change that has come over him.

Somehow Senator Borah has been loosed about the Russian bolsheviks and he persists in demanding the recognition of their government by the United States. We have seen little reason why this bunch should be admitted to the family of nations. They repudiated all financial obligations when they seized the supreme power of state and have shown no disposition to make good on their obligations. At the outset they declared they would never rest until the remainder of the world was under their system and have labored incessantly to stir up revolution and anarchy in other countries, including the United States. After the exposure of Russian duplicity by Secretary Hughes one is at a loss to understand how Senator Borah or anyone else could champion the cause of such a crew. Let them first prove their good faith then accord them recognition is the policy adopted by the administration and there is no reason to believe it will be changed.

The belated official count of the October election, held up by an injunction issued by a judge appointed to his position by Walton, proves that the woman's rights bill permitting women to hold any and all offices in the state to which they may be elected, was approved by the voters. It had been thought that this measure was lost along with four others. Walton's standing with the people at that time was evidenced by a vote of three to one in favor of Campbell Russell's bill empowering the legislature to convene without a call from the governor.

President Coolidge and Secretary Mellon are much disturbed over the growing practice of investing in tax free securities in order to dodge the high surtaxes of the income tax law, pointing out that this capital is needed in the business life of the country. Very true. However, why not attack the trouble at its source and make a start towards abolishing the tax-free exemptions instead of coaxing the capitalists to be good by cutting down their rates? Temporizing never did get anywhere.

The Coalgate Courier remarks that even a wise man may become a fool when a pretty woman is around. Very true, as King Solomon could testify if he were to return to earth. A pretty woman has played the deuce in the world's affairs more than once. Cleopatra for instance, who enthralled Julius Caesar, master of the Roman world, and later Mark Antony who lost everything as a result of succumbing to her fascinations.

The person who expects to be repaid for his efforts to help things along, depending upon gratitude, is likely to be disappointed. It is one's duty to do what he can to make conditions better at home and abroad. When he has done this, he has acted right, and that should be enough reward. Appreciation sometimes comes and sometimes does not. What's the difference?

The Okmulgee Democrat calls attention to differences between the notorious Borgias of the middle ages and modern prisoners. The Borgias often went to considerable expense to lure their victims to the quick death that lurked in one of their specially prepared wine cups, while in modern times the victims pay bootleggers high prices for poison that is just as effective as that administered by the Borgias. Verily, times change.

Do people like to be humbugged? Some times it looks like it. When a peddler of worthless medicines can sell gross after gross to the general public when for less money worthy medicines could be bought, it appears that people do want to be humbugged.

The crowd stands aside for the man who knows where he is going.

## WHEN ILLINOIS EXPLOSION KILLED SCORES

Telescoped box cars blown off the track by the explosion. A score of persons were killed and a fire started which destroyed a large block of the huge plant by an explosion of dust in the Pekin, Ill., plant of the Corn Products Refining Co. Nine men were entrapped when these box cars were blown off the track and telescoped.

## THE TAX QUESTION

(Tulsa Tribune)

Debate on the merits and demerits of the Mellon tax reduction plan is now in vogue. The substitute plans proposed by the Democrats and by the insurgent Republicans are before the country. While Congress is deciding what to do about the bonus, the country will be getting its opinion clarified upon the most interesting matter of tax reduction.

It is a fact, as Mr. Garner of the Democratic group states, that the Mellon plan offers its greatest benefits in dollars and cents to the few who pay taxes on incomes exceeding \$100,000. The smallest reductions are apportioned to the many whose incomes are less than \$5,000. And about 5,500,000 of the 6,000,000 persons who pay income tax are in the class receiving less than \$4,000 a year.

Mr. Mellon's scale offers the man of small income, who really needs relief, a reduction of 25 percent in his income tax. It offers the man with a \$200,000 income a 40 percent reduction.

On the other hand, the Garner scale offers the \$4,000-a-year man a 60 percent reduction, while the fellow who gets \$700,000 a year would have only 12 percent lopped off his tax.

Naturally, the men with big incomes will favor the Mellon plan, and the great rank and file of people, earning less than \$4,000 a year will hold the Democratic substitute as preferable. That is merely the natural selfish reflex which must be anticipated.

One's attitude toward the proposals will be governed more by personal views on taxation than by partisan political inclinations.

It is argued on behalf of the Mellon plan that heavy cuts in the surtax rates and income tax rates on large incomes must be made in order to attract capital into the realm of productive industry. But the argument that the Mellon plan will accomplish that object seems absurd on its face. The tax rate on large incomes even under the reduction proposed by Mellon will still take about one-fourth of all annual incomes exceeding \$200,000, and about one-fifth of all incomes exceeding \$100,000. Is it reasonable to believe that capital will be poured into productive enterprise from the coffers of the ultra rich under such a tax schedule, when they can buy non-taxable securities that pay a steady revenue on the investment?

We submit that the primarily sound way to turn amassed capital back into productive enterprise is to pass an amendment wholly abolishing the tax-exempt security. Then men of great incomes cannot find a device for escaping taxation. But until the issuance of non-taxable securities is halted, the stream of gold from the big income reservoirs is likely to continue, regardless of substantial tax reductions such as that which the secretary of the treasury proposes.

## The New Governor.

(El Reno American)

In distinct contrast to the hectic maladministration suffered by the state of Oklahoma during the first ten months of 1923, the regime of Governor Trapp is moving forward silently, economically and efficiently. The statehouse, which through 1923 provided a constant stream of important news to the newspaper, has subsided into little more than a dignified office building.

In a speech before the editors of the Oklahoma Press association in their annual banquet on Friday evening, the Governor intimated that this was just the sort of an administration that he proposed to continue throughout the remaining three years of his term.

Asserting that politics had no place in the conduct of an office,

the governor stated that he had made absolutely no promises in order to secure his present high position and that job-hunters were shown but little attention by him. He admitted that he had gained considerable knowledge of the pitfalls which beset the paths of governors through his many terms as lieutenant-governor, and stated that he intended to steer clear of these lurking dangers.

Unlike his predecessor, the governor was very courteous to the representatives of the press of the state and thanked them for their almost unanimous support of his administration.

Unfurnished with flowery oratory the governor's speech stood out as the cream of a banquet program in which a number of the most prominent men of the state made addresses. As a result the press has a better understanding of the problems of the state and Mr. Trapp is certain that he has the backing and the sympathy of the fourth estate in his efforts to efface the evil effects of the Walton misrule.

## NEWS NOTES FROM MOVIELAND

Vera Reynolds is one of the younger players to be looked for in Pola Negri's "Shadows of Paris." We never descend to slang in this column or we might say, "She won't be hard to look at when you find her." She had a part in Universal's "Hearts of Oak" and "Prodigal Daughters" produced for Paramount.

Miss Maude Adams has become a member of Guild-Made Pictures, Inc., according to a recent announcement. The first picture to be made under her supervision will probably be "Alladin" in color. Miss Adams collaborated on the scenario of this picture. This association will not interfere with her production of "Kim" screen rights to which she recently purchased from Rudyard Kipling. She has been conducting a series of experiments in lighting and color at the General Electric Co., in Schenectady, N. Y., and at the Eastman Kodak Co., in Rochester.

Joan Standin, who has a comedy role in "Cape Cod Folks" is a member of one of the most famous theatrical families in history. She is a daughter of the Late Herbert Standin, a noted stage figure for many years and has six brothers on the stage.

Mary Pickford's "Dorothy Vernon of Haddon Hall" and Douglas Fairbanks' "The Thief of Bagdad" were finished at almost the same time. The month of March will probably be the time for the premier showings in New York, but Mary's and Doug's many admirers throughout the country will have to wait until later just how much later we have no means of knowing at present.

Here's good news for the children. "Strongheart," the wonder dog of the screen has taken unto himself a wife and family. In his new picture, "The Love Master" which was made in Banff, Alberta, Canada, Strongheart's wife, Lady Julie, a thoroughbred German police dog like himself, will be seen and also half a dozen fuzzy little baby Stronghearts.

## Lottery May Save Cathedral.

(By the Associated Press)

COLOGNE—Cologne's great cathedral is being neglected because of the impoverishment of the Cathedral Building Society and the inability of its members to raise sufficient funds in the Rhineland to keep the historic building in repair.

Consequently an appeal has been made to the Prussian Ministry to grant permission for the establishment of a lottery from which money may be raised to keep a few workmen employed on the building. The sandstone is extremely fragile and needs constant attention.

## Woman in Century Stretch Outlives Three Husbands

(By the Associated Press)

SAPULPA, Okla., Jan. 5.—Living one year beyond the century mark Mrs. Mary Elizabeth Cato, who died here recently, survived three husbands and 13 children. Mrs. Cato's third husband died several years ago. Two granddaughters, Mrs. J. A. Meyler of this city, at whose home Mrs. Cato died, and Mrs. George Berry of Cleveland, Ohio, are her only living descendants. Mrs. Cato was buried in Springfield, Mo., her former home.

Her life, stretching back to the days when slavery was the most vital issue of the nation, Mrs. Cato lived through all the dramatic phases preceding and attending the Civil war. From her Virginia home she watched two gray-clad sons march away to meet the blue hosts of the North. One never came back. The other returned bearing the marks of a shell which had wounded him at Malvern Hill. Nathaniel Cato, whom she later married, also served in the Confederate army and was wounded.

During the reconstruction period the Catos moved to Missouri, settling near Springfield. Five years ago Mrs. Cato came to Sapulpa to live.

## MORE FOR YOUR MONEY

CALUMET not only goes further because you use less than you would of most other brands, but it actually makes more biscuits because it helps to dissolve more liquid. Just think of it! The baking powder used in each baking costs but a small fraction of a cent. So use Calumet and have the best. There's absolutely no reason for buying the cheap or big can powders.

## CALUMET

The Economy BAKING POWDER

Every ingredient that goes into it is extra dry. For instance, the dried white of egg which is used is so concentrated that it requires 14 pounds (10 dozen average sized) fresh hen's eggs to make 1 pound of dried white of egg, or in other words, 7 pounds of the fresh whites to make 1 pound of dried white of egg. You can use less flour and still get your regular amount of biscuits—and better biscuits at that!

Try this recipe, and see how delicious they are!

## CALUMET BISCUITS

4 cups flour 1½ cups milk  
4 level tablespoons butter or lard  
4 level teaspoons Calumet Baking Powder  
1 level teaspoon salt

Sift flour once, then measure, add salt and baking powder and sift three times, rub shortening in with fork or spoon, add milk, mix lightly, turn out on a well-floured board and roll or pat one inch thick, cut and bake in quick oven (450°F) 15 to 17 minutes.

Packed in tin—Keeps the strength in

Sales 2½ times as much as that of any other brand

EVERY INGREDIENT USED OFFICIALLY APPROVED BY U.S. FOOD AUTHORITIES

There is no substitute for Calumet Baking Powder. Any test you put it to will prove this to be true.

THE WORLD'S GREATEST BAKING POWDER

## Meditate Before You Mail It

**CONSIDER** these things--before you mail your orders out of town. The dollar that you spend out of town is gone forever.

The dollar that you spend at home--stays here and works. Whether it goes into civic improvements, via taxes, better schools, churches, streets--or whether it simply goes into more merchandise for your next needs--it circulates at home.

Remember your neighbor will take better care of you than a stranger. It is to his interest to do so. His future depends on his winning and holding your confidence and friendship--and he's right here to make good any mistakes.

When you help the home merchant, the home industry--they in turn help build up your town--thus making greater and better opportunities for you and your children.

Spending money at home is putting a mortgage on it to come back to you--spending it away from home is bidding it goodbye.

And your home purchase is better, for you can see and measure its value--before you part with your money. Not so "the cat in the bag" you buy from the distant point.

**Don't mail your order until you have considered these things--and you won't mail it at all.**

## BIBLE THOUGHT FOR TODAY

TRUST IN THE LORD with all thine heart; and lean not unto thine own understanding.—Proverbs 3:5.

## WORK THAT COUNTS.

The financial report of the State Federation of Women's clubs affords striking proof of the great work that is being done by the organization for worthy girls who are seeking an education.

A number of years ago the Federation set about the work of creating a fund which might be loaned to girls who are striving for an education but are hampered by a lack of ready money. This fund now amounts to more than \$7,000, most of it in the hands of girls who are fitting themselves for better positions, and each year the fund grows larger with new payments of dues and the interest paid by the girls on the loans. In many instances these loans have meant the difference between an education and a life dwarfed by lack of it. Once fitted for life the girls can quickly repay what they borrow and then life means freedom.

East Central has had, and perhaps now has, several girls who have been aided in this way and who have made good when prepared to make the most of their lives.

Since this system is not charity but merely a loan to tide one over a temporary difficulty, it is to be most highly commended. Since the recipients of the favors know they are to repay what they receive and keep some other girl in school they can accept the loans without any feeling of humiliation such as one might feel if given something as a mere matter of charity.

The Oklahoman recently carried an editorial on the treatment usually accorded traitors when they go over to the enemy, citing Grover Bergdoll as a case in point. Bergdoll doubtless expected to be received with open arms when he fled to Germany, but everywhere he met contempt and scorn. Finally the situation reached a point where Bergdoll preferred a federal prison to the life he was living in Germany and is reported heading homeward. Bergdoll might have profited by the examples of Benedict Arnold and other noted traitors or history. In Arnold's case the British officers never lost an opportunity to show their contempt and distrust for him. He was insulted on every side and when the war ended there was nothing for him to do except drag out a miserable existence in England, an outcast to the end of his days. Having betrayed his country no one knew but what he would betray another if opportunity was afforded. Men admire courage and patriotism even in an enemy but for a traitor they have only the utmost scorn.

It certainly cannot be charged that the Democrats in congress have tried to obstruct legislation at this session. They have given the Republicans every possible opportunity to put their program through but so little progress has been made that President Coolidge recently felt constrained to call the leaders together to urge more speed in legislation. The trouble is that the majority party is so much at sea with various conflicting elements it is difficult to arrive at a decision which all will accept. Just now the senate is about to take up the revenue bill. The committee has voted to replace the Mellon schedules but when it reaches the floor of the senate no one knows what will happen. It is generally conceded that the Democrats and insurgents will alter the measure considerably but just how much remains to be seen. If the Republican leaders are not able to do more with the voters than they are with congress the party will be in a bad hole by the time the November election rolls around.

The wife of the author of "Silver Threads Among the Gold" died a few days ago at the age of 82 and in poverty. The author himself died in 1903. The song was a big hit in its day and has been popular ever since. However, its result to the author and his wife was far different from the sentiment expressed in the song. When money came the couple quarreled and finally separated. After that the son and daughter quarreled over the royalties from the song and finally the wife and mother died in poverty. Prosperity had the effect of adding to the number of silver threads among the gold and also turning the happiness of the family into the bitterness of discord.

The Republican senators now want to investigate the source of Democratic campaign funds of 1920. It will probably not take long to find out for the Democrats seldom have enough of a fund to talk about. The big interests always come across handsomely for the Republican war chest while as a general thing the Democrats must take what they can get from the little fellows. It will be remembered that in the last Bryan campaign in 1908 the greater part of the Democratic resources came from dollar contributions from the rank and file of the party.

A Democratic county convention in Iowa broke up in a battle in which several persons were more or less bruised up. Since election day usually means a funeral for the Democrats of Iowa it looks like those delegates were wasting their efforts. Better save their strength for the Republicans.

## THE DAWES REPORT AND GERMAN OPINION.

Intimations that the report of the Dawes committee may be held back until after the Parliamentary elections in Germany and France are obviously guesswork. The better information is that it will be given to the world long before the new Reichstag and Chamber of Deputies are chosen. Postponement of the report would do more than prolong a state of nervous tension in Europe. It would defeat one outstanding purpose of the Dawes enterprise, which has been to divorce, as completely as might be, the reparations inquiry from politics. If the conclusions of the experts are to be of public opinion in Germany, and to a lesser extent in France, the undertaking becomes tactical maneuvering. The prospects of the election of a truculently nationalist Reichstag could only encourage the election of a hard-boiled Chamber of Deputies, and General Dawes would thus find himself confronted with a state of mind on both sides of the Rhine inimical to reasonable settlement.

It would be a misfortune if the German people should plump for a Reichstag pledged to defiance a just reparations policy and, beyond that, of the Treaty of Versailles. The chances of Germany going over to reaction will, it would seem, improve so long as the Dawes report is withheld. The opponents of treaty fulfillment can threaten the German people with the unknown horrors concealed in General Dawes' portfolio. They can appeal for support on a platform of resistance. The elements in Germany favorable to accepting a just settlement will be handicapped in the same degree. They will be placed in the role of defending the unknown. Their position will be made much easier if the German people are not left in the dark. If the Dawes report takes cognizance of the hard facts of the German situation, its publication will enable the advocates of reason in Germany to make a stand against the mischief-makers.

Confronted with a verdict unanimously supported by the members of the Dawes inquiry, the German people would hesitate before going in for a policy of defiance. But so long as the hope persists that the Helfferichs and the Ludendorffs can scotch the Dawes effort and break up Entente unity, the Helfferichs and the Ludendorffs have a chance.—New York Times.

President Obregon of Mexico several months ago announced that he would retire from the presidency at the end of his present term. This caused a squabble among a bunch of aspirants for his office finally resulting in an attempted revolution by which one candidate hoped to win the coveted position by means of bullets rather than ballots. Obregon has apparently stamped out the revolution and while this makes him stronger than ever, he still says he will retire. This is something unusual in Mexico where the rule is to hold on until thrust out by bayonets. Obregon is setting a good example to his countrymen but it remains to be seen if his successors follow it.

Since the beginning of the campaign in 1922 no fewer than 28 propaganda sheets of one kind and another have been launched in Oklahoma, according to an exchange that has taken a post-mortem survey. Of this number it is said that 26 have gone to their eternal rest. Propaganda sheets sometimes create a stir for a short period, but people soon become tired of reading just one thing and being fed up on it turn to other pabulum. Too much like listening to a fiddle with one string.

Attorney General Daugherty's parting shot at President Coolidge does not carry with it a very fraternal tone. Daugherty is sore and don't care who knows it. Having offered on two different occasions to resign only to be requested to remain in the cabinet and then to have his resignation curtly demanded by his chief it is not surprising that he feels like he has been made the chief goat of the sacrifice to the rising tide of public disapproval.

Apparently Hiram Johnson has carried South Dakota over Coolidge by a scratch. That does not bring the California senator much nearer to the nomination than he was before, but it does prove that the Republican party is not a unit for Coolidge, especially in the free and untrammelled West. Coming as it does in the midst of the Daugherty and oil muddle it is not a particularly favorable omen for the President.

An effort is being made to change the date of the convening of congress to the early part of January and set the inauguration date of the president in that month also. Strikes us as a very sensible suggestion, for with the rapid communication of today congress can meet in very short order and should get to work as soon after election as possible instead of waiting thirteen months as is the case under present conditions.

Ada extends her deepest sympathy to Shawnee in her hour of misfortune and will gladly do everything possible to relieve the distress of our neighboring city. Ada has been extremely fortunate throughout her history and has never been visited by a calamity of the kind that has just done such great damage to our neighbor, and thankful for her own good fortune has always been ready to extend sympathy and a helping hand to the unfortunate.

A regular chorus chanting the refrain "liar" is in full swing since Al Jennings testified before the oil committee. However, Al has heard that so often in times past that it will not bother him particularly.

Let a NEWS WANT AD get it for you.

## SYDNEY HEARS SINGER IN CALIFORNIA OVER WIRELESS

(By the Associated Press)  
SYDNEY, N. S. W.—An Australian wireless enthusiast, A. E. Wright, of Scarborough, on the South Coast of New South Wales, reports having heard clearly an announcement made by a radio dis-

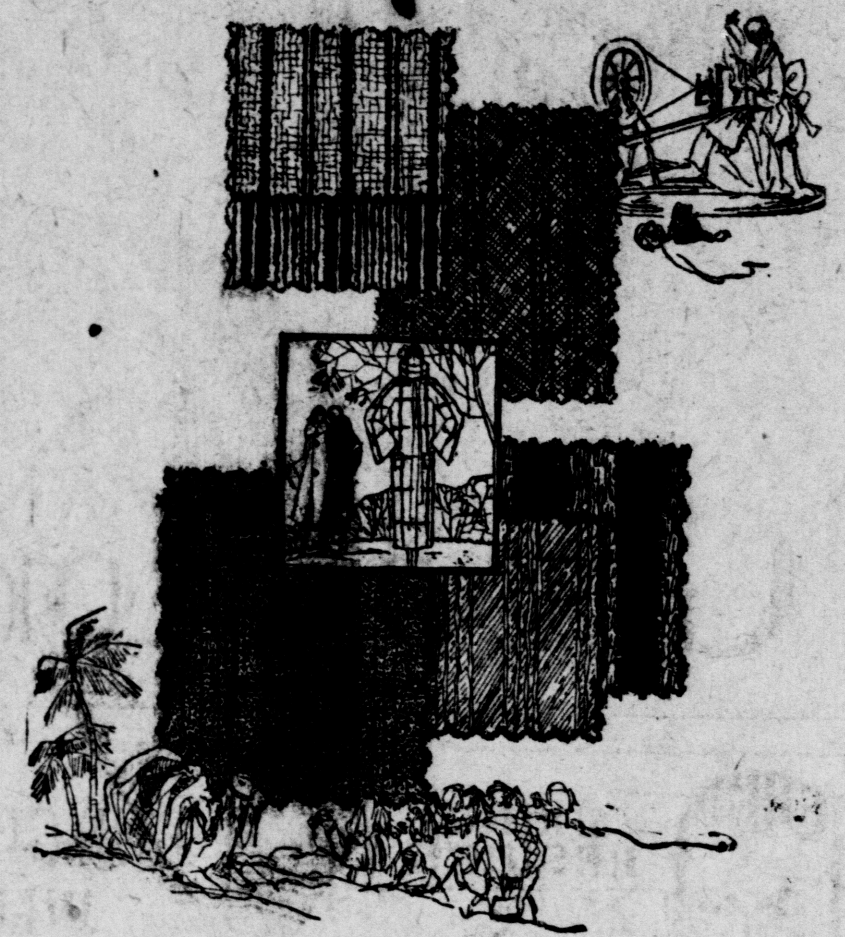

tributing company in California, 4,000 miles away. Following the announcement he heard piano music and a baritone solo. A soprano solo was proceeding when an induction compelled him to close down.

Many Australians using costly apparatus have been listening for American messages, and code signals have been logged, but Mr. Wright, with a two valve set, has established a remarkable record. If his log reports having heard clearly an announcement made by a radio dis-

tributing company in California, 4,000 miles away. Following the announcement he heard piano music and a baritone solo. A soprano solo was proceeding when an induction compelled him to close down.

## BURGLAR WAR HERO DIES WHEN PARDONED FOR CRIME

PARIS.—Jean Baptiste Travali, a lifelong burglar, died recently on the island of Re, a convict awaiting transportation to Devil's Island to serve a sentence of 20 years. Had he lived a few weeks longer, pardoned and freed he might have been acclaimed in Paris as the hero of one of the most dramatic episodes of counter espionage during the war, which brought to the French High Command most valuable information.

Early curfew laws and stern police surveillance in France after the beginning of hostilities made Paris undesirable to Travali in his chosen profession and he emigrated to Switzerland. While at Bern he learned that in the safe of the Austrian Ambassador to Switzerland there could be found documents, which if in the hands of the French War Office, would prove of invaluable assistance in fighting espionage within French frontiers.

Without consulting any one, requesting no assistance or protection, Travali gained entrance to the Austrian Embassy one night and was confronted with one of the most modern safes to date which an infernal machine set to explode the moment it was tampered with, had been attached. Travali simply turned the safe around and went to work from the rear.

Nitro-glycerine was out of the question and Travali had to work with drills which he adapted to the electric light on the ambassadorial desk.

Dawn was breaking when the patriotic burglar finally obtained possession of the documents and the caretaker was just entering to clean the offices. He dodged a couple of bullets, jumped through a rear window and at 10 o'clock that morning he presented to the officer in charge of the French counter espionage in Switzerland a full list of German and Austrian spies operating in France and another of those working in Italy. This occurred in 1917 and was greatly instrumental in causing the arrest of numerous spies and the breaking up of the German espionage system in France.

Travali refused to accept any remuneration whatsoever from the French Government. He also failed to turn over to the officer along with the documents a sum of 250,000 lire which had been in the Ambassador's safe.

During the long trial which resulted in his conviction last April Travali, with great fortitude, refrained from referring to the Bern episode. He kept the audience in good humor by his bright narrative of his arrest in Rio Janeiro and his subsequent escape from the ship while lying at the Azores, when he was captured and chained, he jumped through a port hole and swam ashore.

It was only when the shadow of

Devil's Island began to loom that he decided to talk. His pardon was on President Millerand's desk and would have been signed in the course of a day or two when he died.

### "THE STEADFAST HEART" COMING TO AMERICAN

The fourth of the great distinctive features of the year distributed by Goldwyn-Cosmopolitan, is coming to the American theatre soon. It is "The Steadfast Heart" by Clarence Budington Kelland, adapted to the screen by Phillip Loggeman and it ran serially in Collier's Weekly.

Dainty winsome Marguerite Courtot is playing the leading feminine role and it is said that this is one of the triumphs of her career. Miriam Battista is the girl as a child. Assisting these two is Joey Dewey, whose graceful young figure, has lifted across more screens than many an older star.

As the picture progresses and all the folk become grown-ups, handsome Joseph Striker enters the scene, and those who have seen this talented lad on the stage will find in him the utmost fulfillment of his earlier promise of great characterization. Besides, there is also the famous William B. Mack, whose name is more than sufficient to boost any production on the stage or screen. The incomparable Mary Alden, and Hugh Huntley, the young Australian who has captured the hearts of the American people, are also in this photoplay.

The story is that of a young wife who, frightened and terrorized by his wicked mother, shoots and kills a sheriff in imagined defense of her home. The boy is tried for murder and through the efforts of a newspaper man and a young attorney is acquitted. He wins the enmity of the town's most powerful lawyer through his defeat. The boy is educated far away from the little town, and years later he comes back when his friends are taken sick. He fights his way through the barred doors of local society and in a series of breathless episodes finds out who he really is, and that "blood will always tell."

German Children Study English

LEIPZIG.—English and Spanish have replaced the French language in many of the Prussian and Bavarian high schools. Except in the Rhineland, the study of English has been taken up quite generally throughout Germany in preference to French, according to a recent announcement.

The desire to learn Spanish and English among the younger generation of Germans appears to have been brought about by the large number of men and women who have hopes of emigrating to England or North of South America.

## LATEST MOVIES AMUSE BLUEJACKETS ON CRUISES

LOS ANGELES, March 27.—When the battle fleet sailed from San Pedro, Cal., last January for joint maneuvers with the scouting and special service fleets in the Caribbean, it took along a four-months' supply of motion picture films, including the latest releases, many of which then were appearing in the large cities.

Before leaving San Pedro each ship was given 12 complete shows for the trip by the fleet movie exchange officer, who distributes his films from the flagship Procyon. At regular intervals during a cruise the exchange collects and redistributes the pictures.

The navy department established its own film exchange some time ago. There now are complete exchanges, four on the Pacific Coast, one each in Manila and Honolulu and one floating exchange which accompanies the fleet on voyages.

The exchange officer supplies a vessel with enough films for a show a day.

Chinese Bar Russian Explorer

MOSCOW.—Professor Kozloff, the Petrograd archaeologist who, before the European war, discovered in the Gobi desert the ancient and buried city of Kharakoto, has been turned back by the Chinese authorities from a new expedition he was leading into the same territory. He is expected to return to Moscow soon from Mongolia.

## More Cars and Better Rues, American Tells British Judge

ROCHDALE, England.—Thomas Ashkins, an American living at Southport, recently was fined five shillings for allowing the engine of his car to remain running, and for leaving the car unattended. He apologized for breaking the regulations which were different from those in America. The Mayor said, "We think our laws are better than yours."

Ashkins caused laughter by remarking: "I guess, judge, you have no grounds for that observation, as we have 14,000,000 cars in our country, a great sight more than you have here, and so we know more about them."

## STUDEBAKER WINS ARGENTINA RACE

Special-Six Wins Annual South American Classic

Buenos Aires, March 29.—Pushing ahead of a field of twenty-five American and European contestants, a Studebaker Special-Six won, for the third consecutive year, the spectacular Gran Premio de Argentina, South America's foremost racing event.

St. Mariano de la Fuente drove the Studebaker to victory over a course twice the distance of former years and along roads in so hazardous condition that only thirteen of the twenty-five entries finished the complete distance.

**Distance Doubled**  
De la Fuente has driven in a number of previous Gran Premios, but this is his first year behind the wheel of a Studebaker. In the 1922 race he was beaten out for first place by a Special-Six and last year again finished unsuccessfully. So he concluded that this year he would cast his lot with Studebaker.

Third and fourth prizes went to Gianini and Ferreyra respectively, both of whom also drove Studebaker Special-Sixes, making a total of three places won by Studebaker in this year's race.

Studebaker's winning time was 24 hours and 45 minutes over a treacherous course of 1,520 kilometers (about 950 miles). The race last year was 750 kilometers (465 miles). The racers started from here and made their way to Rosario; thence to Cordoba, and returned by the same route to Buenos Aires.

The Gran Premio is held annually under the auspices of the Argentine Automobile Club. The hard service to which cars are subjected in this grind is greater than many months of ordinary driving.

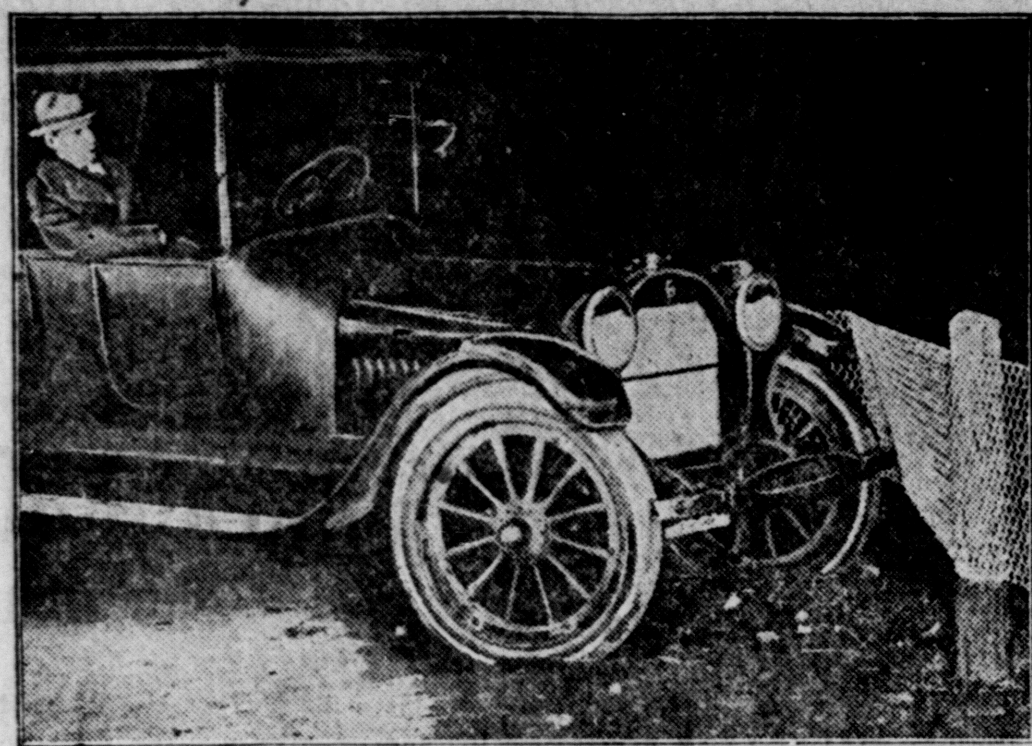

So gruelling was the race this year that nearly half the entries were compelled to drop out, due to mechanical difficulties brought about by the road conditions over which the race was run. The famous Gran Premio is more than a test for speed. South American motorists consider it a final contest for gauging motor car endurance.

**Wins for Third Time.**  
The fact that a Studebaker, for the third time, won this speed-flight against some of the most expensive European and American makes was commented on by the judges.

In 1922 the race was won by Antonio Ovides in a Studebaker. William T. Burke's Special-Six was the first car over the line last year. The Studebaker's victory here comes on the heels of similar achievements in South Africa, the Syrian Desert, Australia and Florida.

## APPLYING PRINCIPLE OF AERIAL LIFE NET TO PUBLIC HIGHWAYS

A "highway guard," a successfully tested safety device, applies the principle of the aerial life net to prevent highway embankment, curve and bridge accidents. W. T. Kyle of Bridgeport, Conn., sponsored the appliance. The secret of the guard lies in its strength and method of fabricating the material so as to obtain elasticity. Tests have shown that it is practically impossible for the average-sized machine speeding as high as forty miles an hour to break through and if the car hits the wire at a moderate speed the recoil is sufficient to bring it back to the road without serious damage.

### Automobile Notes

Improperly adjusted valve rocker arms mean a loss of power.

Never leave the gears in mesh when you stop your tractor.

When turning a corner it is a wise precaution to make a practice of throwing out the clutch.

Proper inspection of the steering gear is as necessary and as important as the care of the engine.

Front wheels should have about one-quarter inch foregather, that is, they should toe in slightly.

### DEPENDS HIMSELF WITH HIS WALKING CANE

Added to the many requisites of a finished actor is the need to know fencing. This is demonstrated in "The Man from Brodney's," a Vitaphone special production, which will be exhibited at the McSwain theatre Monday.

In this romantic photoplay, J. Warren Kerrigan, who plays the title role, and Arthur Hoyt, who will be seen as Prince Karl, or Brabatz, were given ample opportunity to display their skill in this particular field and settle a long standing argument as to which was the better fencer.

While Kerrigan enjoys a reputation as an all-around athlete, Hoyt is known as the star pupil of Professor Uptenhove, fencing master of the Los Angeles Athletic Club. Kerrigan, who uses a cane thru

out the episode, bravely ignored the chance of receiving serious injuries from the sword to make the action as realistic as possible.

Kerrigan and Hoyt battled up the steps of the castle, which serves as a background in the picture. The sword flashed with bewildering speed, but always the cane of Mr. Kerrigan ward off the blade. Across the mosaic pavement the two fought with increasing fury. Then finally Kerrigan, after a brilliant display of skill, caught the sword and hurled it through the air, ending the unequal contest.

This sequence is one of the important incidents in the production and leads to a delightful romance between a European Princess and an American consular attaché. "The Man from Brodney's" is a colorful romance set in the Duchy of Rapp-Thorberg and on the island of Japet, in the South Seas.

Eton College is the oldest of England's public schools and Oxford the first university.

## 300 AUTO DEALERS AT SHOW

Oklahoma City, Okla., Mar. 29.—More than 300 automobile dealers from all parts of Oklahoma and the Texas panhandle are expected to attend the annual dealers' luncheon of the Oklahoma City Motor Car Dealers' association to be held at noon on Wednesday, March 26, at the Hinkins hotel in connection with the Oklahoma City Auto Show.

The principal features of the meeting will be talks by John H. Butler of Kansas City, president of the National Automobile Dealers' association; C. A. Vane, general manager of the association; P. F. Drury, assistant general manager, and H. S. Vance, sales manager of the Studebaker Motor Car Corporation of America.

Butler, Vane and Drury will talk on problems vitally affecting the motor car dealer, such as the used car, service, departmentization, etc. Vance's talk will be the only one based from the manufacturer's standpoint. In view of the fact that this is the first dealers' meeting especially designed to treat of dealer problems an unusually large attendance is expected.

Those who have attended the automobile shows staged every spring in New York, Chicago, Kansas City and other large centers, say the Oklahoma City show, size of the city considered, is the best in the United States.

All the United States navy yards are arsenals.

## YOUTH IS TEMPORARILY BLINDED BY HYPNOTICS

POTSDAM.—Dr. Achilles, a doctor of philosophy of Settin, has been arrested on a charge of keeping a young man under hypnotic influence for a long period with the result that he was temporarily blinded. The case became known through a strange combination of circumstances. On January 13 of last year Herr Grunwaldt, a local clergyman, was impressed by the unusual appearance of the blinded youth, who sat near the pulpit during service.

The clergyman after the service invited the young man and the woman who accompanied him to visit him in his study. The young man spoke in a very confused manner about theosophy and philosophical subjects. His eyes impressed the clergyman as being glassy, rather than blinded, and his eyeballs moved in a nervous manner when the clergyman gazed at him in a fixed manner. Herr Grunwaldt knows something of hypnotism and immediately suspected that the youth was under hypnotic influence.

While the young man was in the clergyman's study Dr. Achilles telephoned and stated he was on the way to get his patient. The boy broke down and cried when he heard the news, but accompanied Dr. Achilles. When Herr Grunwaldt communicated his suspicions to the boy's parents they consulted phy-

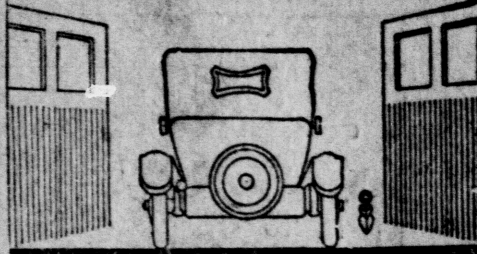

sicians who had tried to diagnose their son's trouble and finally removed him from the care of Dr. Achilles, who at first refused to let him go. The young man has slowly recovered his sight.

### Foresters Headed for Toronto

TORONTO, Ont., March 27.—The Independent Order of Foresters, with 165,000 members in Canada and the United States, will celebrate its golden anniversary here June 17 when commemorative exercises will be held in the 3,000 courts of the society throughout the two nations, according to an announcement by W. H. Hunter, Supreme Chief Ranger.

The order, said Mr. Hunter, has paid out in fraternal benefits \$82,000,000, has reserves and surplus of \$40,000,000 on hand and its insurance now in force totals \$150,000,000. Philanthropic work always the society's activities.

## Give Us a Hearing

Find out what the world's largest quality car producer has to offer before deciding on any fine car

**WE** seek the favor of a comparison—ask that you look at a Studebaker before buying a rival car. We'll rest our case on what you find.

We are producers of quality cars on a quantity basis.

We use the finest materials that money can buy. Our labor is the cream of the industry. We work in \$50,000,000 plants—5% built since the war—which house the finest precision machinery the world affords.

By producing in great quantity, we cut manufacturing costs. It costs us less to build a quality car, and what we save goes to you. Under ordinary manufacturing conditions Studebakers could not be sold within 25% more to twice their price.

All any maker can put into his car are fine materials and fine workmanship. And these are put in every Studebaker. Studebaker makes the broad statement that *no finer car can be built, no matter what you pay. Remember this when weighing any car against a Studebaker.*

All Studebaker models are equipped with Timken bearings. There are few cars in America, regardless of price, which equal ours on this point. In our Light-Six, for instance, we put more Timken bearings than are used in any competitive car, within \$1,500 of its price.

We are one of the very few builders, either in Europe or America, using crankshafts machined on all surfaces. It costs us \$600,000 a year to give you this. But it results in that

smoothness of operation, that lack of vibration which characterizes only the most expensive cars.

We pay 15% more for many alloys to insure better than "commercial run" used in many cars at twice the price of Studebaker.

We subject Studebaker cars to 30,000 inspections. That requires 1,200 men. All told over 70,000 machine and hand operations are performed in the manufacture of a Studebaker car.

In so many operations, though

## Compare Studebaker with Cars at Twice Its Price

The chief difference between Studebaker and many cars selling at twice its price is this:

Studebaker produces distinguished quality cars in quantity for those who want value, as against producing cars of equal quality, in small quantity, for those who want "exclusiveness." The quality is the same.

Studebaker is the world's largest producer of quality cars. Studebaker cars are manufactured efficiently and more economically. That's why prices are so low.

See a Studebaker and compare. There is no finer car.

each one is small, there is great opportunity for economies and savings.

### World's finest coachmaking

We build Studebaker bodies in the internationally famous Studebaker body building plants—for 72 years known all over the world as builders of the superlative in fine vehicles.

No other body maker has the experience of Studebaker. No other the Studebaker traditions to inspire him.

### Simple arithmetic

Why Studebaker can offer a quality car at present Studebaker prices is simple arithmetic.

We've cut manufacturing costs and that reflects itself in Studebaker prices. Remember, selling prices of all cars are based on manufacturers' costs, *not on quality of material, not on workmanship.*

That's why prices vary so. Why two cars may be of identical quality and show a price difference of from \$400 to \$1,200 and more. Why "Price Class" is a myth.

The engineering cost on Studebakers, for instance, is but \$3.33 a car. If we produced only 20,000 cars on an "exclusive" basis, instead of 150,000, this would be increased to \$25 per car or more.

Our die cost for bodies is under \$2 per car. In small production it would go to \$20 minimum.

If we "assembled" our cars, we would have to pay a profit to 75 to 100 makers of major parts.

If our plants were not so modern, our machinery the ultimate in efficiency, we would have to add materially to our prices.

Find out what Studebaker has to offer. Compare with cars costing twice as much. And you will own a Studebaker.

In 1919 the public paid \$80,000,000 for Studebakers; in 1920, \$100,000,000. In 1921, \$120,000,000. In 1922 over \$155,000,000. In 1923, \$201,000,000.

Every year the world turns more and more to Studebaker.
